The 183rd meeting of the State Expert Appraisal Committee (SEAC) was held on 27th April, 2015 under the Chairmanship of Dr. R. B. Lal for discussion on the query responses submitted by the PP and the projects / issues received from SEIAA. The following members attended the meeting-

- 1. Dr. MohiniSaxena, Member
- 2. Shri K.P. Nyati, Member
- 3. Dr. U.R. Singh, Member
- 4. Dr. M.P. Singh, Member
- 5. Dr. Alok Mittal, Member
- 6. Shri Manohar K. Joshi, Member
- 7. Shri A.A. Mishra, Secretary

The Chairman welcomed all the members of the Committee and thereafter agenda items were taken up for deliberations.

Discussion of Query Responses and matters refered back by SEIAA:

1. Case no. 745/2012 Shri Kedar Singh, C/o Shri Tezvant Jain, BH- 13, Dendayal Nagar, Gwalior (M.P.) Expansion of Gohad Metal Stone quarry at Khasra No. 04, Village – Gohad, Tehsil Gohad, Distt. – Bhind (M.P.) Lease Area - 4.0 Ha. Capacity –1,50,000 Cubic Meter Per Year.

The case was returned to SEIAA for re-scrutiny in view of the SEIAA guidelines. The case was again forwarded to SEAC for appraisal of the project in accordance to the SEIAA guidelines. PP was simultaneously directed by SEIAA for submission of requisite information in the prescribed format-1 and II. The same were submitted by the PP and placed before the committee for consideration.

Scrutiny of the case reveals that the PP has submitted the requisite information along with a copy of approved mining plan. Tehsildar has reported habitation within 500 meters from the boundary of the project site. Mining Officer vide letter no. 345 dated 15/01/2015 has reported that there are 03 more mines within 500 meters from the project boundary, the total lease area being 15 Ha. <u>Based on the submissions the committee recommended the case for grant of prior EC subject to the following special conditions:</u>

- 1. Habitation (Sahariayon Ka Pura) has been reported within 500 meters from the project boundary, hence controlled blasting shall be carried out in presence of experts. All safety precautions and preventions as per DGMS guidelines shall be taken up during mining and crushing operations.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 1,50000 m³/Year and maximum average depth of pits shall not exceed 12 meters.

- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 2. Case No. 844/2012 Shri Sanjay Kumar Jain S/o Shri Jawaharlal Jain, Tilak Ward, Devri, Dist - Sagar (MP) E. C. for approval of Lease Area – 03.99 Hectares Stone/Boulder Quarry at Vill. Chhevla, Teh.-Devri, Dist.-Sagar (M.P)

This is a case of mining of stone bolder & murrum. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Vill. Chhevla, Teh.-Devri, Dist.-Sagar (M.P) in 3.99 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 175th meeting dated 25/02/2015, whereby scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue. The requisite information collected from the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wildanimals. Concerned Mining Officer vide letter no. 492 Dated 03/09/2014 has reported that there are 08 more mines with 500 meters from the project boundary with total lease area of 21.82 ha. <u>Based on the information submitted by the PP committee recommended the case for grant of prior EC subject to the following conditions:</u>

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 14250 m³/Year and maximum average depth of pits shall not exceed 12 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.

- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- **3. Case No. 892/2012** Smt. Gurjeet Kaur, w/o Shri. Satvinder Singh Chawla, Anand Nagar, Rajakhedi, Dist Sagar (MP) E.C. for quarry area 1. Oha Pamakhedi Metal Stone Quarry Production Capacity (12000 cubic meter/year) at Village-Pamakhedi, Tehsil & Dist Sagar (M.P.).

This is a case of mining of stone boulder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Village-Pamakhedi, Tehsil & Dist Sagar (M.P.).in* 1.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. Concerned Mining Officer vide letter no. 11 dated 02/01/2015 has reported that there are 06 more mines within 500 meters from the boundaries of the project and the total lease area is 10.5 Ha.

PP has submitted a copy of approved Mining Plan. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. The case was considered in the 171st meeting dated 29/01/2015 whereby PP was asked to submit the requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has submitted the requisite information obtained from Tehsildar but the information required from Forest department on presence on Protected Areas within 10 Km from the project boundaries has not yet been submitted. PP may be asked to submit the required information from Forest department in prescribed format immediately.

4. Case No. – 2014/2014 Shri Babulal Paatwala(Owner) Resi 91, Sukhniwas Indore, Distt-Indore (M.P) E.C. for basalt Stone Quarry Lease Area – 4.00 ha.,, Capacity - 11,400cum/year at Khasra No.779, Village-Kanehriya, Tehsil- Tokkhurd, Distt-Dewas (M.P.)

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.779, Village-Kanehriya, Tehsil- Tokkhurd, Distt-Dewas (M.P)* in 4.0 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 11,400 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer vide letter no. 405 dated 15/09/2014, that 01 more mine is operating / proposed within 500 meter radius around the said mine; the total lease area being 8.0 Ha. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 164th meeting whereby scrutiny of the mining plan revealed the presence of certain scheduled animals in the area which needs confirmation from the forest

STATE EXPERT APPRAISAL COMMITTEE 27th MINUTES OF 183rd MEETING

department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. PP has submitted a clarification in this regard.

Based on the submissions made by the PP the case was recommended for grant of prior EC subject to the following conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 11400 m³/Year and maximum average depth of pits shall not exceed 12 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

5. Case No. – 1616/2013 Shri Amit Srivastava, S/o Shri Devicharan Srivastava, H.No. 48 Indrapuri Colony Tehsil & District-Tikamgarh (M.P.) E.C. for 4.0 ha Parsuva Road Metal Quarry at Village Parsuva, Tehsil & Dist.-Tikamgarh (M.P.)

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Village Parsuva, Tehsil & Dist.-Tikamgarh (M.P.) in 4.0 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan and other requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. Concerned Mining Officer vide letter no. 1483/A dated 29/10/2004, has reported that there are 03 more mines within 500 meter radius around the said mine and the total lease area is 16 Ha.

The case was considered in the 171st meeting dated 29/01/2015 whereby after deliberation PP was asked to submit clarification on following: After mining the total of area-wise break-up including the mined out area proposed to be converted in to a water-reservoir and the area under plantation is reported to be 4.33 Ha; whereas total lease area is only 4.00 Ha. PP has submitted a clarification in this regard which reveals that the surface plantation shall be carried out in 1 ha and bench-plantation

shall be carried out in 0.33 Ha thus effective plantation shall be done in 1.33 Ha and rest of the mined out area shall be developed into a water body. Based on the submissions made by the PP the case was recommended for grant of prior EC subject to the following conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 40000 m³/Year and maximum average depth of pits shall not exceed 12 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

6. Case No. – 1647/2013 Shailendra Singh Bundela, MataTeela Road, Talbehat, Dist.-Lalitpur (U.P.) E. C. for 4.0 ha Parsuva Road Metal Quarry at Village Parsuva, Tehsil & Dist -Tikamgarh (M.P.)

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Village Parsuva, Tehsil & Dist - Tikamgarh (M.P.) in* 4.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan and other requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. Concerned Mining Officer vide letter no. 1483/B dated 29/10/2004, has reported that there are 03 more mines within 500 meter radius around the said mine and the total lease area is 16 Ha.

The case was considered in the 171st meeting dated 29/01/2014, whereby after deliberation PP was asked to submit following:

- Scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. PP has submitted a clarification from Ranger in this regard, PP was asked to obtain comments of concerned DFO on this issue and submit.
- Revised EMP addressing the issue of protection of nearby nallah from mining activity.

Above information has been submitted by the PP and the same was placed before the committee. Based on the submissions made by the PP the case was recommended for grant of prior EC subject to the following conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. Garland drains and check-dams shall be constructed all around the dumps to prevent any inflow from mininf site into the nearby nallah.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 40000 m³/Year and maximum average depth of pits shall not exceed 12 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

7. Case No. - 909/2012 Shri Ajay Kumar JainTilakward, Devri, Distt- Sagar (M.P.) Stone Boulder Quarry Lease Area –3.99 ha., Capacity – 14250 Cum/Year, at Khasra No. – 109, Vill. Chhevla, Teh. Devri, Dist- Sagar (M.P.)

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *Khasra No. – 109, Vill. Chhevla, Teh. Devri, Dist-Sagar* (M.P.) in 3.99 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. Concerned Mining Officer vide letter no. 491 dated 03/09/2014 that 08 more mines are proposed / operating within 500 meter radius around the said mine and total lease area is 21.82 Ha.

The case was considered in the 175th meeting dated 25/02/2015 whereby the scrutiny of the mining plan revealed the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue. A copy of letter obtained from

the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the information submitted by the PP committee recommended the case for grant of prior EC subject to the following conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 14250 m³/Year and maximum average depth of pits shall not exceed 12 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 8. Case No. 2222/2014 Shri Ashish Gupta S/o Shri Kailash Gupta, Rudra Colony, Infront of Collector Bungalow, Hoshangabad (MP)-461001 River Sand Quarry Lease Area – 1.214 ha. at Khasra No.-23, Capacity-36000 Cum/Year, Village-Cheerpura, Tehsil-Rehatgaon, District-Harda (MP)

This is a sand mining project comprising a lease area of 1.214 ha. The project requires prior EC rom SEIAA before commencement of production from the proposed quarry. The application was forwarded by SEIAA to SEAC for appraisal and necessary recommendation. The submissions and presentation made by the PP reveals following:

- The quarry is located at ó River Ajnal, Village-Jaramohangaon, Tehsil-Katangi, District-Balaghat (MP).
- PP has submitted the Mine Plan duly approved by the competent authority. PP has also submitted an EMP.
- The mining is proposed to be carried out manually.

The case was considered in the 174th meeting dated 24/02/2015 whereby the PP was asked to submit information from DFO and Tehsildar in the prescribed format and letter from Mining Officer certifying the no. of mines operating / proposed with in 1000 meters around the said quarry. The same was submitted by the PP and placed before the committee.

Concerned mining officer vide letter no. 2969 dt. 13/03/2015 has reported that no sand quarry is proposed / operating within 1000 meters from the periphery of the said quarry.

Based on the submissions by the PP the <u>case was recommended for grant of prior EC subject to the</u> <u>following special conditions:</u>

- 1. The amount towards reclamation of the land in MLA shall be carried out through the mining department; the appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA.
- 3. Plantation shall be carried out on the banks for stabilization of the banks.
- 4. Abstraction of sand shall be as per the approved Mining Scheme but not exceeding 36000 m^3 in a year and the depth of mining shall be restricted to 3m or water level, whichever is less.
- 5. Mining shall be carried only between 1st October to 31st May or during non-monsoon period as declared by the State Govt.
- 6. Transportation of sand shall not be carried out through forest area.
- 7. The mining activity shall be done manually.
- 8. Heavy vehicles shall not be allowed on the banks for loading of sand.
- 9. The sand shall be transported by small trolleys up to the main transport vehicle.
- 10. Transport vehicles will be covered with taurpoline to minimize dust/sand particle emissions.
- 11. For carrying out mining in proximity to any bridge and/or embankment, appropriate safety zone of 1 Km on upstream as well as on downstream from the periphery of the mining site shall be ensured taking into account the structural parameters, location aspects, flow rate, etc., and no mining shall be carried out in the safety zone.
- 12. No in stream mining shall be allowed.
- 13. The mining shall be carried out strictly as per the approved mining plan and ensure that the annual replenishment of sand in the mining lease area is sufficient to sustain the mining operations at levels prescribed in the mining plan.
- 14. Established water conveyance channels should not be relocated, straightened, or modified.
- 15. If the stream is dry, the excavation must not proceed beyond the lowest undisturbed elevation of the stream bottom, which is a function of local hydraulics, hydrology, and geomorphology.
- 16. After mining is complete, the edge of the pit should be graded to a 2.5:1 slope in the direction of the flow.
- 17. PP shall take Socio-economic activities in the region through the -Gram Panchayatø
- 18. EC will be valid for mine lease period subject to a ceiling of 5 years.

9. Case No. – 2211/2014 Shri Amar Sharma S/o Shri Santosh Kumar Sharma, FCI Road, Chhindwara Square, Town & District-Seoni (MP)-480661 Basalt Stone Quarry Lease Area –2.00 ha., at Khasra No. -1169/1,1169/2 , Village-Banki, Tehsil-Seoni, Seoni (MP) Capacity – 12,000 Cum/Year,

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. -1169/1,1169/2*, *Village-Banki, Tehsil-Seoni, Seoni (MP)* in 2.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. Concerned Mining Officer vide letter no. 2158 dt. 09/09/2014 has reported that there is one more mine proposed / operating within 500 meters around the said mine and the total lease area is 3 ha.

The case was considered in the 174th meeting dated 24/02/2015 whereby the PP was asked to submit requisite information in the prescribed format duly verified by the Tehsildar. The same has been

submitted by the PP and placed before the committee. Based on the submissions made by the PP the case was recommended for grant of prior EC subject to the following special conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 12000 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

10. Case No. 2220/2014 – Shri Vikram Singh Dhurvey S/o Shri J.S. Dhurve, Subhashganj,

Umaria (MP)-484661 *Prior Environment Clearance for approval of proposed Metal Stone Quarry in an area of 1.00 ha. at Village-Nigahari, Tehsil-Chandia, District-Umaria (MP)*

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.-57/73, Village-Nigahari, Tehsil-Chandia, District-Umaria (MP)* in 1.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no.610 dated 14/10/14, that no mine is operating / proposed within 500 meter radius around the said mine with total lease area of - Ha. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 174th meeting dated 24/02/2015 whereby the PP was asked to submit Letter from DFO confirming the distance from the forest boundary and the impacts if any. PP has submitted a letter from DFO stating that the lease boundary is more than 250 meters from the forest boundary and these shall be no adverse impacts as the transportation of material is not intended through forest. Based on the submissions made by the PP the case was recommended for grant of prior EC subject to the following special conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 4000 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- **11. Case No. 2265/2014** Shri Anil Kha S/o Shri Bashir Kha Mev, Village-Kotdi, Post-Mandawai, Tehsil-Taal, District- Ratlam (MP)Basalt Stone Quarry Lease Area – 2.00 ha., . at Khasra No.–147, Village-Abupura, Tehsil-Taal, District- Ratlam (MP) Capacity-11,400Cu.mt./Year,

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at *Khasra No.-147, Village-Abupura, Tehsil-Taal, District-Ratlam (MP)* in 2.00 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 672 dated 07/11/2014, that 01 more mine is operating / proposed within 500 meter radius around the said mine with total lease area of 4.00 Ha. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 175th meeting dated 25/03/2015 whereby the scrutiny of the mining plan revealed presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue. Letter from the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the information submitted by the PP committee recommended the case for grant of prior EC subject to the following conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 11400 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

12. Case No. – 2261/2014 Shri Pramod Kumar Singh S/o Shri Harish Chandra Singh, Village-Nado, Post-Mada, Tehsil-Mada, Singrauli (MP)-486889Murum Quarry Lease Area – 1.230 ha., at Khasra No.–992, Village-Koyalkunth, Tehsil-Mada, District-Singrauli (MP) Capacity-10,395Cu.mt./Year.

This is a case of mining of murrum. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at *Khasra No.–992, Village-Koyalkunth, Tehsil-Mada, District-Singrauli* (*MP*) in 1.230 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 1236 dated 30/08/2014, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 175th meeting dated 25/03/2015 whereby the scrutiny of the mining plan revealed presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue. Letter from the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the information submitted by the PP committee recommended the case for grant of prior EC subject to the following conditions:

1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department

has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 10395 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

13. Case No. – 2259/2014 Shri Sumat Kumar Jain, Moti Nagar Ward, Sagar (MP) Basalt Stone Quarry Lease Area – 2.00 ha., at Khasra No.–98, Village-Badtuma, Tehsil-Sagar, District-Sagar (MP) Capacity- 11400Cu.mt./Year,

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at *Khasra No.-98, Village-Badtuma, Tehsil-Sagar, District-Sagar (MP)* in 2.00 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 101 dated 07/02/2015, that 01 more mine is operating / proposed within 500 meter radius around the said mine and total lease area is 4 Ha. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 175th meeting dated 25/03/2015 whereby the scrutiny of the mining plan revealed presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue. Letter from the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the information submitted by the PP committee recommended the case for grant of prior EC subject to the following conditions:

1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 11400 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

Case No. – 2233/2014 Shri Pankaj Jain S/o Shri Dharam Chand Jain, M/s Alfa Infra and Project, 11, Nayagaon, Rampur, Jabalpur (MP)-482001 Basalt Stone Quarry Lease Area – 2.00 ha. at Khasra No. 229, Village-Bineki Kalan, Tehsil-Ghansour, District-Seoni (MP) Capacity -25,650 Cum/Year.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. 229, Village-Bineki Kalan, Tehsil-Ghansour, District-Seoni (MP)* in 2.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. Mining Officer vide letter 2374 dated 10/10/2014 that no mine is proposed / operating within 500 meters around the said mine.

The case was considered in the 174th meeting dt. 24/02/2015 whereby the PP was asked to submit response on the following issues: Scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue.

PP has submitted a copy of the revised mining plan clarifying the above issue. Based on the submissions made by the PP the case was recommended for grant of prior EC subject to the following special conditions:

1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining

department has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding $25,650 \text{ m}^3/\text{Year}$ and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

Case No. - 2223/2014 Smt. Pushplata Tiwari W/o Shri Om Prakash Tiwari, Ram Manohar Lohiya Ward, Adarsh Colony, Katni (MP)-483501 Stone Quarry Lease Area -1.80 ha., at Khasra No. - 746, Village-Banda, Tehsil & District-Katni (MP) Capacity -17100 Cum/Year.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. - 746, Village-Banda, Tehsil & District-Katni (MP)* in 1.8 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. Concerned Mining Officer vide letter no. 5042 dt. 07/11/2014 has reported that one more mine is proposed / operating within 500 meters around the said mine with total leas area of 5.80 ha.

The case was considered in the 174th meeting dt. 24/02/2015 whereby the PP was asked to submit response on the following issues: Scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue.

PP has submitted a copy of the revised mining plan clarifying the above issue. Based on the submissions made by the PP the case was recommended for grant of prior EC subject to the following special conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding $17100 \text{ m}^3/\text{Year}$ and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 16. Case No. 2238/2014 Shri Hari Singh Raghuwanshi, Sultanpur, Tehsil-Sardarpur, District-Dhar (MP) Basalt Stone Quarry Lease Area –1.00 ha. at Khasra No. -1, Village-Khandwa, Tehsil-Dhar, District-Dhar (MP), Capacity 8550 Cum/Year.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. -1*, *Village-Khandwa, Tehsil-Dhar, District-Dhar (MP)* in 1.00 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 1121 dated 20/11/2014, that 01 more mine is operating / proposed within 500 meter radius around the said mine and total lease area is 3.5 Ha. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 175th meeting dated 25/03/2015 whereby the scrutiny of the mining plan revealed presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue. Letter from the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the information submitted by the PP committee recommended the case for grant of prior EC subject to the following conditions:

1. The amount towards reclamation of the pit and land in MLA shall be carried out through the

mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA

- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 8550 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

Case No. – 2229/2014 Smt. Rekha Sahu W/o Shri Nishant Sahu, Sahu Ware House, Gandhi Gram, Tehsil-Jatara, District-Tikamgarh (MP)-472118 Basalt Stone Quarry Lease Area –4.00 ha. at Khasra No. 1/1ka, Village-Ramnagar Khurd, Tehsil-Jatara, District-Tikamgarh (MP) Capacity -11400 Cum/Year.

The case was considered in the 174th meeting dt. 24/02/2015 whereby the scrutiny of the mining plan revealed the presence of certain scheduled animals in the area which needed confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue.

PP has submitted a copy of the revised mining plan clarifying the above issue. Based on the submissions made by the PP the case was recommended for grant of prior EC subject to the following special conditions:

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.

- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding $11400 \text{ m}^3/\text{Year}$ and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

18. Case No. - 1823/2014 M/s Dabang Earth Movers Pvt. Ltd. , Prop. Shri Mukesh Gupta,

R/o New Bus Stand, Katni, Distt. – Katni (M.P.) 483330 Badagaon Basalt Stone Quarry at Khasra No. – 396, 409 & 410, Village- Badagaon, Tehsil – Barhi, Distt. –Katni (M.P.) Lease Area-3.34 ha., Capacity – 71388 m3/Year, Lease Period – 10 Year.

Case was recommended in 155^{th} SEAC meeting dt. 11/11/14 for production of stone boulder with capacity not exceeding 36000 m³/Year and maximum average depth of pits should not exceed 6 meters. On request of PP, SEIAA returned the case vide letter No. 2905 dt. 02/01/15 for reconsideration of the production capacity. Committee reviewed the project in light of the mining plan and request of the PP. It was observed that PP could not furnish appropriate evacuation plan and details of the infrastructure during the presentation; hence considering the average feasible annual production the capacity recommended in the project was 36000 m³/Year PP agreed for the same during the meeting. The committee also took the cognizance of anticipated adverse impact during the operation phase.

However, the mining plan was reviewed and it was observed that the shape of the proposed land and its area may support the targeted production if mine is developed scientifically and effective evacuation plan is implemented. <u>Accordingly, committee recommended following amendment in the relevant condition of earlier recommendation:</u>

 \pm Production of stone boulder shall be strictly as per the mining plan not exceeding 71388 m³/Year and maximum average depth of pits shall not exceed 6 meters.ø

With following additional special conditions:

- 1. A buffer of 7.5 meters shall be maintained all around the lease area.
- 2. Before maximum production appropriate evacuation plan be ensured.
- 3. Controlled and pre-determined blasting shall be observed in presence of experts.
- 4. Other conditions shall remain unaltered.
- **19.** Case No. 1881/2014 Shri Pratik Vijayvargiya, Rammeshan Road, DO Bhatti Chouraha, Ratlam (MP) Basalt Stone Quarry at Village-Sarwani Khurd, Tehsil-Ratlam, District-Ratlam (MP) Lease Area 2.00 ha, Capacity 5700 Cubic mt. /Year.

This is a stone mining project comprising a lease area of 2.0 ha *at Village-Sarwani Khurd, Tehsil-Ratlam, District-Ratlam (MP)*. The project requires prior EC from SEIAA before commencement of production. The application with other documents was forwarded by SEIAA to

SEAC for appraisal. It was reported by the concerned incharge officer of mining department vide letter no. 389 dated 28/08/2014, that 06 more mines with cumulative lease area of 19.9 ha are operating / proposed within 500 meter radius around the said mine.

The case was considered in the 160th meeting dated 21/12/2014 whereby the PP was asked to submit revised EMP addressing various environmental issues. PP has submitted the requisite information. <u>Based on the submission made by the PP the case was recommended for grant of prior EC subject to the following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding $5700 \text{ m}^3/\text{Year}$ and maximum average depth of pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 20. Case No. 1914/2014 Shri Ajay Sharma S/o Shri Ram Charan Sharma, Tehsil-Birpur, District-Sheopur (MP)-476335Stone Boulder Quarry in an area of 1.508 ha., at Village-Raghunathpur, Tehsil-Birpur, District-Sheopur (MP), Lease Area – 1.508 ha.b Capacity - 8884 Cubic mt. /Year. At Khasra No. - 689

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at *Village-Raghunathpur, Tehsil-Birpur, District-Sheopur (MP)* in 1.508 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Asst. Mining Officer of mining

department vide letter dated 10/09/2014, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body. The EMS and other submissions made by the PP were found to be satisfactory and acceptable.

The case was considered in the 160th meeting dated 21/12/2014 whereby PP was asked to submit response for the following queries at the earliest:

- Exact distance of Chambal Abhyaran from the periphery of the mine site, duly verified by the concerned Forest Authority..
- PP shall apply to the Chief Wild Life Warden for comments on identified / notified Ecosensitive zone around the Chamabal Abhyaran and shall submit the same to SEAC.

PP has submitted a letter from SDO, Chambal Abhyaran Sheopur stating that no PA exists within 10 Km radius of the proposed mining site. Committee accepted the response.

<u>Based on the submission made by the PP the case was recommended for grant of prior EC</u> subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 8884 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- Case No. 2127/2014 Shri Raju Agrawal, Vijay Nagar, Gondiya (MH) Basalt Stone Quarry Lease Area – 3.00 ha., at Khasra No.-01, Village-Benegaon, Tehsil-Kiranpur, District-Balaghat (MP), Capacity –28500 Cubic mt./Year. Qry-170th meeting dt. 28/01/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.-01, VillageBenegaon, Tehsil-Kiranpur, District-Balaghat (MP) in 3.00 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is not proposed in the lease area and it was reported that the same shall be installed out side the lease area.

PP has submitted a copy of approved Mining Plan and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is not proposed in the lease area and it was reported that the same shall be installed out side the lease area.

The case was considered in the 170th meeting dated 28/01/2015 whereby the PP was asked to submit following information along with supporting documents for further necessary action in the matter:

- a. Site verification report from the Regional Officer of MPPCB, especially the status of plants in and around the lease area.
- b. Clarification / Certification from the Tehsildar have to be obtained and submitted regarding the ó Land use / cover status of the proposed land in Revenue records (Forest or Revenue) as mentioned in the letter from concerned DFO submitted by the PP.

Site verification report from RO, MPPCB was received and the response to the above queries has been submitted by the PP and was placed before the committee.

<u>Based on the submission made by the PP the case was recommended for grant of prior EC</u> subject to the following special conditions:

- 1. Protection of fauna and flora in and nearby the project site shall be ensured while executing the mining activities.
- 2. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 3. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 4. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 5. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 6. Transportation of material shall be done in covered vehicles.
- 7. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be implemented as per the recommendation of MPPCB.
- 8. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 9. Curtaining of site shall be done using appropriate media.
- 10. Production of stone boulder shall be as per the mining plan not exceeding 28500 m^3 /Year and maximum average depth of pits shall not exceed 10 meters.
- 11. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 12. Transportation shall not be carried out through forest area.

- 13. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 14. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 15. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- **22.** Case No. 1946/2014 Smt. Manjula Jain W/o Shri Sanjay Jain, 168, Near Head Post Office, Killa Road, District-Bhind (MP)-477001 Stone Quarry Lease Area 2.00 ha., at 3619/3 k, Village- Billaua, Tehsil-Dabra, District-Gwalior (MP) Production Capacity- 15894 Cum/Year.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No3619/3 k, Village- Billaua, TehsilDabra, District-Gwalior (MP) in 2.00 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. QL58 dated 07/10/2014, that 05 more mines are operating / proposed within 500 meter radius around the said mine the total lease area being 9.625 ha. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 162nd meeting dated 23/12/2014 whereby PP was asked to submit the distance of this particular group of mines from major Bilua cluster duly verified from the Mining Department. Concerned Mining Officer has reported that the distance of this group of mines is more than 500 meters from the major cluster of Bilaua.

Based on the submission <u>made by the PP the case was recommended for grant of prior EC</u> subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be implemented as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 15894 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.

- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 23. Case No. 1883/2014 Shri Nand Kishore Patel S/o Shri Babu Lal Patel, Village-Hathkhoh, Tehsil-Deori, District-Sagar (MP)-470001 Stone Boulder Quarry at Village-Hathkhoh, Tehsil-Deori, District-Sagar (MP), Lease Area – 3.960 ha.,,Capacity - 4100 Cubic mt.. /Year.

This is a stone mining project comprising a lease area of 3.960 ha at Village-Hathkhoh, Tehsil-Deori, District-Sagar (MP). The project requires prior EC from SEIAA before commencement of production. The application with other documents was forwarded by SEIAA to SEAC for appraisal. It was reported by the concerned Asst. Mining Officer of mining department vide letter no. 615 dated 16/09/2014, that 05 more mines with cumulative lease area of 19.53 ha are operating / proposed within 500 meter radius around the said mine.

The case was considered in the 160th meeting dt. 21th Jan. 2015, whereby the PP was asked to submit response to the following queries:

- Details of the crusher to be installed with its location.
- Use wise total water requirement in the project with justification along with the source.

PP has submitted the satisfactory response to the said queries.

Based on the submission <u>made by the PP the case was recommended for grant of prior EC</u> subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be implemented as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding **4100** m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.

- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- Case No. 1974/2014 Shri C. Surendran, Project Manager, M/s Madhav Phool Sagar, Rasalganj Colony, Niwas, Dist-Mandla (MP)-481885 Stone & Murrum Quarry Lease Area – 3.97 ha. at Village-Sukheri Sangrampur, Tehsil-Niwas, District-Mandla (MP) Qry SEAC 163rd dt. 24/12/2014

This is a case of mining of stone bolder and Murrum. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at VillageSukheri Sangrampur, Tehsil-Niwas, District-Mandla (MP) in 3.97 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is stone- 180000 m3 / Year and Murrum- 12000 m3/Year. PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 835 dated 16/09/2014, that no mine is operating / proposed within 500 meter radius around the site protect that the pit formed after mining shall be developed into a water body.

The case was considered in the 163^{rd} dt. 24/12/2014, whereby the PP was asked to submit response to the following queries:

- EMP budget to be revised including the budget for plantation.
- 3D Mine closure map to be submitted.
- Material is proposed to be transported through village roads; the same shall be converted in to WBM- detailed proposal with budgetary provision for the same to be submitted.

Response to the above queries was submitted by the PP and the same was placed before the committee for scrutiny and necessary recommendations:

Based on the submission made by the PP the case was recommended for grant of prior EC subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.

AITTEE 27th April 2015

STATE EXPERT APPRAISAL COMMITTEE MINUTES OF 183rd MEETING

- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 180000 m^3/Year and production capacity of murrum shall be 6 12000 m^3/Year .
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 25. Case No. 2044/2014 Shri Mohammad Sarwar S/o Shri Ramjan Mohammed, Post & Tehsil-Gohparu, District-Shahdol (MP)-484771 Stone Quarry Lease Area 1.554 ha.,, at Khasra No.-185/01, Village-Diyapipar, Tehsil-Gohparu, District-Shahdol (MP) Capacity –10,000 Cubic mt./Year. 165th SEAC Meeting dated -08/01/2015.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.-185/01, Village-Diyapipar, Tehsil-Gohparu, District-Shahdol (MP) in 1.554 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 10,000 m3 / Year. PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, vide letter no. 1721 dated 27/08/2014 that no more mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 165th meeting dated 08/01/2015 whereby the scrutiny of the case revealed that presence of certain scheduled animals in the area has been reported in the Mining Plan which seems to be incorrect. However, DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue. The requisite information collected from the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the submission made by the PP the case was recommended for grant of prior EC subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.

- PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 10000 m^3/Year and maximum average depth of pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 26. Case No. 1882/2014 Shri Kailash Kumawat, 120, Karmadi Road, Ratlam (MP) Stone Quarry at Village-Sarwani Khurd, Tehsil-Ratlam, District-Ratlam (MP) Lease Area 2.00 ha, Capacity 5700 Cubic mt. /Year. SEAC 160th dt. 21th Dec. 2014.

This is a stone mining project comprising a lease area of 2.0 ha at Village-Sarwani Khurd, Tehsil-Ratlam, District-Ratlam (MP). The project requires prior EC from SEIAA before commencement of production. The application with other documents was forwarded by SEIAA to SEAC for appraisal. It was reported by the concerned incharge officer of mining department vide letter no. 388 dated 28/08/2014, that 06 more mines with cumulative lease area of 19.9 ha are operating / proposed within 500 meter radius around the said mine.

The case was considered in the 160^{th} dt. 21/12/2014, whereby the PP was asked to submit a revised EMP addressing the following issues-

- Details of the crusher to be installed with its location.
- Plan for protection of the nearby nallah in terms of garland drain / check- dams to be constructed in the mining lease area.
- Use wise total water requirement in the project with justification along with the source.

PP has submitted the satisfactory response to the said queries.

Based on the submission <u>made by the PP the case was recommended for grant of prior EC</u> subject to the following special conditions:

Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.

1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be implemented as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 5700 m3/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

27. Case No. – 2195/2014 Shri Gowardhan Kalra, Punjabi Colony, Tehsil-Shyamgarh,

District-Mandsaur (MP) Basalt Stone Quarry Lease Area – 1.00 ha.,, at Khasra No. – 52/4, Capacity - 8550 Cum/Year, Village-Aeri, Tehsil-Shyamgarh, District-Mandsaur (MP) 171st SEAC Meeting dated -29/01/2015.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located Village-Aeri, Tehsil-Shyamgarh, District-Mandsaur (MP). in 1.0 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan and other requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 171st meeting dated 29/01/2015 whereby the PP was asked to submit clarification for the following query:

After mining the total of area-wise break-up including the mined out area proposed to be converted in to a water-reservoir and the area under plantation is reported to be 1.27 Ha; whereas total lease area is only 1.00 Ha.

PP has submitted clarification for the same.

Based on the submission <u>made by the PP the case was recommended for grant of prior EC</u> subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.

- PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be implemented as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 8550 m3/Year and maximum average depth of pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

28. Case No. – 2164/2014 Shri Dhanraj Hiware S/o Shri Ramchandra Hiware, Village-Kuwakheda, Tehsil-Dhanora, District-Seoni (MP)-480999 Kuwakheda Basalt Stone Quarry Lease Area – 1.00 ha. at Kh. No. – 36, Capacity - 6000 Cum/Year, Village-Kuwakheda, Tehsil-Dhanora, District - Seoni (MP). SEAC 170th dt. 28th Jan. 2014.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at at Kh. No.* – 36, *Village-Kuwakheda, Tehsil-Dhanora, District - Seoni (MP). in* 1.00 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is - 6000 cum/Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 1269 dated 17/11/2014, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body. Crusher for sizing of stone is proposed in the lease area.

The case was considered in the 170th meeting dated 28/01/2015 whereby it was observed that the shape of the lease area is awkward hence PP was asked to submit detailed sections showing how the mine shall be developed justifying the targeted production. PP has submitted a response in this regard according to which:

- Narrow shape has been omitted from excavation and this area shall be planted.
- PP has requested to grant EC for reduced production of $3500 \text{ m}^3/\text{ Y}$.

<u>Committee was satisfied with the response and decided to recommend the case for grant of prior</u> <u>EC based on the submissions made by the PP subject to the following special conditions:</u>

- 1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be implemented as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 3500 m3/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- **29.** Case No. 2082/2014 Shri Vilas Kumar Jaiswal, Umra Nala, Tehsil-Mohkhed, Chhindwara (MP) Basalt Stone Quarry Lease Area – 1.00 ha., at Khasra No.- 239/5, Village-Chikhlikala, Tehsil-Mohkhed, District-Chhindwara (MP) Capacity –5700 Cubic mt./Year. 166th SEAC Meeting dated -09/01/2015.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.- 239/5, Village-Chikhlikala, Tehsil-Mohkhed, District-Chhindwara (MP) in 1.0 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the PP, that 01 more mine has been approved within 500 meter radius around the said mine. However, there was no certificate.

The case was considered in the 166^{th} meeting dated 09/01/2015 whereby the PP was asked to submit a copy of letter from concerned mining officer certifying the no. of mines and their cumulative lease area with in 500 meter radius around the said mine. PP has submitted the requisite information. The concerned Mining Officer has reported that there is no mine operating or proposed with in 500 meters around the said mine vide letter no. i i dated i i

Based on the submission <u>made by the PP the case was recommended for grant of prior EC</u> <u>subject to the following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining

department has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be implemented as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 5700 m3/Year and maximum average depth of pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 30. Case No. 1884/2014 Smt. Veena Sethi W/o Shri Virendra Sethi, 84, Luv Kush Nagar, Sector No. 2, Khandwa (MP)-450001 Mohanya Khurd Stone Quarry at Village-Mohanya Khurd, Tehsil-Punasa, District-Khandwa (MP), Lease Area 1.25 ha.,,Capacity 8000 Cubic mt.. /Year. 160th SEAC Meeting dated -21/12/2014.

This is a stone mining project comprising a lease area of 1.25 ha at Village-Mohanya Khurd, Tehsil-Punasa, District-Khandwa (MP). The project requires prior EC from SEIAA before commencement of production. The application with other documents was forwarded by SEIAA to SEAC for appraisal. It was reported by the concerned Asst. Mining Officer of mining department vide letter no. 1284 dated 09/10/2014, that no mine is operating / proposed within 500 meter radius around the said mine

The case was considered in the 160th meeting dated 21/12/2014 whereby the PP was asked to submit use wise total water requirement in the project with justification along with the source. The same was submitted by the PP.

Based on the submission <u>made by the PP the case was recommended for grant of prior EC</u> <u>subject to the following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be implemented as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 8000 m3/Year and maximum average depth of pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 31. Case No. 2076/2014- Case No. 2076/2014 Shri Jagdish Basantani S/o Shri Gulab Rai Basantai, 72, Shanti Nagar, Bairasiya Road, Bhopal (MP)-462011 Basalt Stone Quarry Lease Area – 3.680 ha., at Khasra No.-1113, Village-Baijnath, Tehsil-Ashta, District-Sehore (MP), Capacity – 70560 Cubic mt./Year. Query response for 156th meeting dated 09/01/2015

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.-1113, Village-Baijnath, TehsilAshta, District-Sehore (MP) in 3.680 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 70560 m3 / Year. PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, vide letter no. 5476 dated 12/09/2014 that 02 more mines are operating / proposed within 500 meter radius around the said mine, the total lease area being 9.680 Ha. PP has reported that the pit formed after mining shall be developed into a water body

The case was considered in the 156th meeting dated 09/01/2015, whereby scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue. The requisite information collected from the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the information submitted by the PP committee recommended the case for grant of prior EC subject to the following conditions:

1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 70000 m³/Year and maximum average depth of pits shall not exceed 12 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 32. Case No. 2186/2014 Shri Sandeep Mohoad, M/s Shri Dutt Stone Crusher, PostMangurli, Tehsil-Bichua, Chhindwara (MP)-480105 Stone Quarry Lease Area 60.650 ha., at Khasra No. 6 29/6. Capacity 6 (Old no. 29/4) Capacity - 5130 Cum/Year, Village-Munganpur, Tehsil-Bichua, District-Chhindwara (MP). Carry forward on the request of PP from SEAC¢s 171 meeting dated 29/01/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Village-Munganpur, Tehsil-Bichua, District-Chhindwara (MP) in 0.650 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 2790 dated: 05/11/2014, that no mine is operating / proposed within 500 meter radius around the said mine.

The case was discussed in the 171st meeting dated 29/01/2015 whereby the scrutiny of the mining plan revealed the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on the presence of scheduled animals and submit the same to SEAC. The requisite information collected from the concerned Forest Officer has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the information submitted by the PP committee <u>recommended the case for grant of</u> <u>prior EC subject to the following conditions:</u>

1. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining

department has to be deposited with the Collector to take up the activity after the mine is exhausted.

- 2. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 3. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 4. Transportation of material shall be done in covered vehicles.
- 5. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 6. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 7. Curtaining of site shall be done using appropriate media.
- 8. Production of stone boulder shall be as per the mining plan not exceeding 5130 m³/Year and maximum average depth of pits shall not exceed 06 meters.
- 9. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 10. Transportation shall not be carried out through forest area.
- 11. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 12. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 13. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

33. Case No. - 1676/2013 - Shri Suraj Chhabaria, Exeutive Director, RC Fertilizer Pvt. Limited, 181, A2, Maker Tower, Cuffe Parade, Mumbai-400005 - *SSP/GSSP & Allied Blended*

Fertilizer Products, BRP & LABSA Plants at Khasra No.- 59-F, 61-A, 61-B, 61-C,185 to 188, Village- – Meghnagar, Tehsil –Meghnagar, Distt. – Jhabua (M.P.) ProposedProduction Capacity – SSP/GSSP : 198000 MT/Y, Benification of Low Grade Rock Phosphate : 92000 MT/Y, Allied Blended Fertilizer Products : 49500 MT/Y, LABSA: 19800, Area – 7.24 Ha., 163rd SEAC Meeting dated -24/12/2014.

The case was considered in the 163^{rd} meeting dated 24/12/2014 whereby the PP was asked to submit response to the following queries:

- The analyses report especially the fluoride level to be checked and reported.
- Tailing Management Plan including the quantum generation per unit production, qualitative analysis and storage / disposal plan.
- Clear conceptual plan on a layout map to be submitted indicating all land uses including green area development plan.
- Note on beneficiation with mass balance for water and material (Ore).
- Incremental GLC to be checked and reported. Submitted

PP has submitted response with supporting documents for the above queries. The submissions made by the PP were found to be satisfactory and acceptable. <u>Hence the case was recommended for grant of prior EC subject to the following special conditions:</u>

- 1. Zero Liquid Discharge (ZLD) shall be maintained strictly.
- 2. The baseline fluoride content in ground water is found to be on higher side hence complete premises shall made impervious to prevent any percolation into the ground water.
- 3. Water requirement in the project shall not exceed 410 KLD.

- 4. Treated waste-water proposed to be used in gardening shall be regularly tested for fluoride content before using the same.
- 5. About 600 T of tailing is proposed to be sold to the brick manufacturers; PP shall maintain a log-book in this connection and shall submit a copy of the same with the compliance report.
- 34. Case No. 1938/2014 Mr. Vijay Bhateja, Vice President, Nav Uday Educational & Charitable Society, 29-A, PKT-1, Sector-7, Dwarka, New Delhi-110075 Prior Environment Clearance for approval of proposed project "Park Nav Uday Hospital & Medical College" at Village-Maharajpura, Tehsil & District-Gwalior (MP)

The case was considered in the 161^{st} meeting dated 22/12/2014 and after deliberations PP was asked to submit response to the following queries:

- ➢ How 201 KLD of treated waste water shall be utilized for various purposes to be submitted along with water mass balance.
- > Provision for connecting the laundary waste water drain to the STP.
- Provision of grit chamber in ETP to be given.
- > Only roof-water to be harvested (after first rains) accordingly provisions to be furnished.
- > Lay out clearly indicating green areas and the parking to be furnished.
- Low-lying areas to be identified for land-filling.
- Revised lay-out with provision of thick green belt.
- > Should obtain permission from CGWB for abstracting ground water.
- ➤ Commitment for use of 40% fly-ash cement-concrete mix.
- The area falls in seismic zone of hence measures and material being proposed to be used to to prevent damages from possible earth quake to be furnished.
- Capital cost for ETP / STP appears on lower side the same to be enhanced and submitted.
- Consent from GMC / Waste Management Facility shall be obtained & submitted for disposal of solid waste.

The response submitted by the PP was placed before the committee. Many issues still remained to be explained in the submission <u>hence it was decided by the committee to call the PP for explanation on the above queries in coming meetings.</u>

35. Case No. – 1804/2014 Shri Dhiraj Prakash Agrawal, Director, M/s H.G. Infratech Pvt. Ltd., Govind Bagh, Gandhi Road, Thatipur, R.K. Puri POGwalior, Distt- Gwalior (M.P.)-474011. STP Capacity : 330 KLD

➢ Operation : 20 Hours

Comprising Primary Treatment, Secondary Treatment and Tertiary Treatment:

Case was considered in the 153^{rd} meeting dated 21/10/2014, whereby the PP was asked to submit response to the following queries -

- Agreement / permission / commitment from Gwalior Municipal Corporation for disposal of surplus treated sewage into the municipal drain. The detail of such plan has to be furnished with drawing of the sewer system existing as well as proposed in the region.
- Review the proposed road net-work including the width for smooth movement of fire tender; possibility should also be explored additional emergency gate for fire tenders from near the towers.
- Filter press has to be placed for drying the STP sludge; accordingly plan to be submitted.
- Provisional NOC for fire-fighting plan to be furnished.
- Capacity of the proposed STP has to be reviewed in light of the waste-water generation from the project.
- The location of the STP also needs to be reviewed keeping in mind the contours and locations of the other features in the project.
- The distance of Air Force installations has been shown to be about 9.0 Km from the site in the application form, whereas the same was reported to be more than 10 Km. The issue needs clarification.

PP has submitted response to the above queries and the same was placed before the committee for scrutiny and necessary comments. The submissions made by the PP were found to be satisfactory and <u>acceptable hence the case was recommended for grant of prior EC subject to the following</u> special conditions:

- 1. Fresh water requirement for the project shall not exceed 429 KLD.
- 2. Ground water shall not be used in the project during construction as well as operation phase.
- 3. Two row plantation all around the project boundary shall be ensured.
- 4. A covered MSW storage area shall be constructed with holding capacity of 48 hours.
- 5. Filter press shall be installed near STP to filter dry (de-moist) the STP sludge; the dries sludge shall be disposed off along with the MSW.

36. Case No. – 970/2012 M/s Lupin Limited, Plot No. – 198 – 202, New Industrial Area No. – 2, Mandideep, Distt. – Raisen (M.P.) – 462046 Capacity Enhancement for some of the existing products and inclusion of new products. 173rd SEAC Meeting dated -23/02/2015

This is a case of expansion of existing Pharmaceutical Bulk Drugs plant and no construction of building is required for proposed expansion. The project is covered as item 5 (f) in the schedule of EIA notification and hence requires prior EC from SEIAA before commencement of any activity at site. The project is proposed in the existing premises of Lupin at Mandideep. The application pertaining to EC was forwarded by SEIAA to SEAC for appraisal and necessary recommendations.

PP and their consultant presented the case before the SEAC in this meeting. The submissions and the presentation made by the PP and his consultant revealed following:

Water Consumption

Break-up of Water Consumption

S. No.	Description	Existing Water Requirement (kl/d)	Additional Water Requirement (kl/d)	Total Water Requirement (kl/d)
Fresh	Water Consumption		•	
1	Process	386	107	493
2	Utility (Boiler & Cooling Tower)	165	Recycled Water will used	133
3	Domestic	160	15	175
	Total Fresh water	711	90	801
Recycl	ed Water Consumption	L	1	1
1	Cooling Towers/Boiler	440	90	530
3	Domestic	10	59	69
Total I	Recovered water	450	149	599
Total Water Consumption		1161	239	1400

Wastewater Generation

Sl. No.	Description	Existing Waste Water generation (kl/d)	Additional Proposed (kl/d)	Total Waste Water generation (kl/d)
1.	Process	351.6	98.4	450
2.	Cooling & Boiler	42.6	25.4	68
3.	Domestic	76.7	35.3	112
То	tal Waste Water (kl/d)	470.9	159.1	630

Total 630 kl/day, of effluent is expected to be generated after expansion. This includes process wastewater, boiler blow down, floor and equipment washing, cooling tower blow-down and domestic wastewater.

Keeping in view the above conditions, the project proponent has proposed to recycle effluent through RO, MEE and ATFD for recovery of water and reuse. Part of the treated effluent of Effluent Treatment Plant-I shall be used for chemical preparation in Effluent Treatment Plant-II.

Components	Expected Impact	Impact Zone	Management Plan
Air Environment	Increase in ambient air quality (ground level concentration) w.r.t. to PM10, Sox, NOx, Incremental GLC in microgram/m3: PM10 : 0.65 SO2 : 18 NOx : 10 The waste water generated	The impact zone is at a distance of 1 km in E, SE & SSE directions from project site for all the air parameters. The recycled water will	 Emission control systems (scrubbers, high efficient dust collector, cycle separator, solvent in close loop system, leak detection and repair system). Periodical monitoring. Controlled supply of
Environment	shall be treated in the Effluent Treatment Plant and recycled in the Zero Liquid Discharge facility to recover water thus there will be no discharge in any water body or ground, hence the surface and ground water quality will have no adverse impact due to the proposed project.	be used in cooling towers as make up water and boiler feed water.	 water used for construction to be made and its monitoring to be done to control wastages. An awareness programme will be carried out and implemented to educate construction manpower about the need for water conservation and pollution control Regular monitoring of recycling units effluent will be undertaken to ensure compliance with the standard. Rain water harvesting would be done in order to reduce further impact on water extraction and to increase water level in and surrounding areas.

EMP for Air Environment

The following monitoring programmes will be carried out for Air Environment:

- 1. Ambient Air Quality monitoring for PM_{10} , $PM_{2.5}$, NOx, SO₂, and CO as stipulated by MadhyaPradesh Pollution Control Board / CPCB shallbedone on regular basis.
- 2. To developHeathly and safeworking conditions for the employees and contractors, work zone air quality monitoring will be carried out near the sources of fugitive emissions.
- 3. Sampling and analysis of the air samples will be done in accordance with the Indianle gislative requirements and CPCB standards.
- 4. Stack of adequate height will be provided with the DG set for proper dispersion of pollutants.
- 5. Regular stack monitoring will be carried out and records will be maintained.
- 6. Maintenance of scrubbers & condensers will be done.
- 7. Maintenance & up keep of greenbelt in and around the factory premises will be done.

To reduce the fugitive emissions following measures will be taken :

- 1. All loading and unloading operations will be carried out in closed and controlled conditions.
- 2. All transfer points of raw material and solvents will be fully enclosed.
- 3. Air borne dust will be controlled through sprinkling of water at places, where there is possibility of dust generation.
- 4. Proper ventilation system will be provided in the process area. For the safety of the workers, personel protective equipment (PPE) like hand gloves, helmets, safety shoes, goggles, aprons etc. will be provid.
- 5. Noise mask will be provided to the workers at places where there will be possibility of dust generation and fugitive emissions.

EMP for Water Environment and Solid Waste

M/s Lupin Limited, Mandideep, has made provision for expansion of its existing effluent treatment plant & recycling units, to maintain zero liquid discharge condition at site all the time. Besides the present management plan in practice, followings will be carried out:

- 1. Monitoring, investigation and control of the abnormalities related to overflows and leakages, if any.
- 2. Provision of avenues for rain water harvesting to recharge the ground water
- 3. Maintenance of record of the zero discharge unit operations.
- 4. Maintenance of record of analysis of the characteristics of effluent at the inlet and outlet of Effluent Treatment Plants.
- 5. Enhancement of housekeeping in the ETP area.

Green Area Development:

It was informed that a thick and effective green belt has been developed by the industry along its perimeter and other available spaces within the premises.

The case was earlier discussed in the 173rd SEAC Meeting dated -23/02/2015 where, it was informed that verification of compliances of existing environment clearances has been done by the RO, MoEF the same was discussed before the committee. After detail discussion, the committee had asked the PP & consultant to furnish the following:

- 1. Copy of Compliance report submitted at MoEF.
- 2. Worst case scenario considering maximum production of one product to the maximum capacity of manufacturing drug at the site. And thereafter evaluation of adequacy of the ETP and the Waste Water recycling facility.

The information/documents on above two points submitted by the project proponent and the same were placed before the committee. The submissions made by the PP were found to be satisfactory and acceptable hence the <u>case was recommended for grant of prior EC subject to the following special conditions:</u>

- 1. All vents from the exhausts of the processes shall be connected to a scrubbing system and the scrubbing media shall be treated through the effluent treatment plant.
- 2. Zero liquid discharge shall be observed.
- 3. Log-books shall be maintained for disposal of all types hazardous wastes and shall be submitted with the compliance report.
- 4. Dedicated power supply shall be ensured for uninterrupted operations of treatment systems.
- 37. Case No. 2404/2015 Shri L. Krishnamurati, Div. Forest Officer, 74 Bunglow, Khel Parisar, Bhopal-462001 Prior Environment Clearance for approval of proposed "Construction of Navin Van Bhawan at Bhopal, Madhya Pradesh" at Khasra No.- 1499/1, 1500 (Link Road -II, Tulsi Nagar) Village-Shahpur, Tehsil-Huzur, District-Bhopal (MP) Plot Area- 39518.97 Sqm, Built-up Area- 21010.08 Sqm. Building Construction Project.- Request for with-drawal of application submitted as the T. built-up area is claimed to be less than 20000 m2.

The case was received from SEIAA for appraisal as building 6 construction project. However, a request from PP (Conservator of Forest, Bhopal Division Forest Department) has been received with a request for withdrawal of application as the depratment has revised the plans. The total built-up area with revised plans is reported to be less than 20,000 m2 hence it is claimed by the PP that the project does not attract the provisions of EIA Notification. Based on the submissions made by the PP the <u>committee decided to return the case to SEIAA for delisting the same.</u>

38. Case No. – 2204/2014 Mr. A.K. Dubey, Director, M/s SEAC Ltd., 46, Ramlaxmi Parisar, Malviya Nagar, Bhopal-462003 (MP) Environment Clearance for approval of proposed housing project "SEAC SHIV-SHRADDHA" at Khasra No.-241/1/1 Total Land Area-30000.00 M2 Total Built up Area-31074.65 Vill. - Chandukhedi, Badnagar Road, District-Ujjain (M.P.) 172nddt. 22th Feb 2014.

Case was considered in the 172^{nd} meeting dated 22/02/2015 whereby the PP was asked to submit response to the following queries with in 15 days:

- Ground water is proposed to be used in the project; Permission from CGWA or a copy of the application made to CGWA to be furnished in this regard.
- > Mode of ultimate disposal of the excess treated waste-water with supporting documents.

- MSW management along with the consent of Ujjain Municipal Corporation for disposal of MSW at municipal trenching / land-fill site to be furnished.
- > Details of STP with concept of treatment.
- Site lay-out depicting various utilities including the space for storing of MSW and Green area planning at site.
- > Corpus fund proposed for environmental issues to be re-checked and submitted.

Scrutiny of the documents submitted by the PP in support of the above issues revealed that the project site is out side the UMC limits. PP has submitted NOC from Gram Panchayat regarding disposal of sewage and MSW whereas locations pertaining to disposal of sewage and MSW has not been mentioned any where. <u>Committee decided for the visit by a sub-committee to ensure various environment safe guards pertaining to the project.</u>

39. Case No. – 792/2012 M/S RMG Super Mines Pvt. Ltd., 33, Jagran Bhawan, Press Complex, M.P. Nagar, Bhopal-462011. Dhamdha Iron Ore, Laterite, Clay & Ochre Deposit (production capacity - 75241TPA), lease area (4.54 Ha) M/s. RMG Super Mines Pvt. Ltd at Village Dhamdha, Tehsil – Sihora, Dist Jabalpur (Pl. See SEIAA website) PP request for extension of TOR validity. ToR issued vide letter No. – 458 dt. 25/04/13

The TOR validity has expired on 04/04/2015 PP has requested for extension of the same. Case has already been delisted by SEIAA vide letter no. 1701-02/SEIAA/13 date 26-09-13. Hence request for extension of TOR validity can not be considered until the case is re-listed by SEIAA.

40. Case No. 780/2012- M/s Jatashankar Marbles Pvt. Ltd., Ganesh Villa, House No. 153, Sector 46, NIT, Faridabad (Haryana) – 121001 Labraha Granite Deposit Mine at Khasra No. 1480, Village – Labraha, Tehsil – Chandla, Distt. – Chhatarpur (M.P.) Lease Area – 2.922 Ha., Proposed Capacity – 6,000 Cubic meter per year. (Case was discussed 102nd SEAC Meeting dt. 11/09/12& 118th dt. 01/02/13) 155th meeting dt. 11/11/14.

The case was considered in the 155th meeting dated 11/11/2014 whereby the PP was asked to submit response to the following queries:

- Details of the land proposed for OB management along with the land ownership documents.
- ➢ OB management plan.
- Comments from competent authority on issue of existence of large number of bird species in the region.
- > Transport route of materials from the mining site up to the main road.
- Water and air analysis reports presented in the EIA report need to be reviewed/ revisited in view of several discrepancies pointed out by committee.
- The committee was not satisfied with the approach adopted by the consultant in preparation of EIA report particularly the discrepancies in analysis and survey based data/ information.

The submissions made by the PP were found to be satisfactory and acceptable. Hence the case was recommended for grant of prior EC subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 3. Transportation of material shall be done in covered vehicles.

- 4. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be installed as per the recommendation of MPPCB.
- 5. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 6. Curtaining of site shall be done through thick plantation all around the boundaries of the lease area.
- 7. Production of *Granite* shall be as per the mining plan not exceeding 6000 m3 /Year.
- 8. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 9. Transportation shall not be carried out through forest area.
- 10. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 11. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 12. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 41. Case No. 1068/2013- Shri Jitendra Kumar Kushwaha, Adarsh Nagar Colony, Post office- Katni, District Katni (M.P) Bhatura Lime stone mine at Khasra no.39/2, 39/3,39/4,39/5, Village -Bhatura Tehsil- Maihar Distt-Satna (M.P) Lease area -16.288 ha. 154th meeting dt. 10/11/14.

The case was considered in the 154th meeting dated 10/11/2014 whereby the PP was asked to submit response with supporting documents for the following **queries**:

- Production figures from 1993 onwards duly authenticated by the concerned authority of mining department. - all within the limit prescribed in the MPPCB Consents. (Below 50000 MT/Y).
- > The water analyses report has to be reviewed in view of the pointed discrepancies.
- Calculation of the area considering all the land-uses in MLA along with a lay-out (conceptual plan).
- Impact of de-watering / storage of mine water on the ground-water regime of the region to be carried out and reported.
- Clarification on the Public Hearing issue raised in the news paper cutting with supporting documents.
- An undertaking stating following: (a) Back-filling shall be necessarily taken up by the end of 5th year. (b) A buffer of 50 meters shall be created in form of lush green curtain along the boundary falling towards the main road. (c) No deep-hole blasting shall be carried out in the project.
- > Calculation of the quantum of waste generation vis-à-vis back-filling.
- A specific note on cumulative environment impact assessment considering the other mines in the vicinity.

The submissions made by the PP were found to be satisfactory and acceptable. Hence <u>the case</u> was recommended for grant of prior EC subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 3. Transportation of material shall be done in covered vehicles.

- 4. Necessary consents shall be obtained from MPPCB and the air / water pollution control measures have to be installed as per the recommendation of MPPCB.
- 5. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 6. Curtaining of site shall be done through thick plantation all around the boundaries of the lease area.
- 7. Production of *Lime stone* shall be as per the mining plan not exceeding 50000 T /Year.
- 8. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 9. Transportation shall not be carried out through forest area.
- 10. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 11. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 12. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 42. Case No. 2345/2014 Shri Jagdish Singh S/o Shri Lakhu Singh, Mandleshwar, Khargone (MP) (M-8819042868) Sand Mine Lease Area – 3.0 Ha., at Khasra No. 01, Lease Period Ten Year at Village-Mandhata, Tehsil-Punasa, District-Khandwa (MP), Capacity 6 88,200 Cubic meter/Year. Qry- 179th meeting dt. 25/03/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. 01, Lease Period Ten Year at Village-Mandhata, Tehsil-Punasa, District-Khandwa in 3.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 179th meeting dated 25/03/2015 whereby the PP was asked to submit a copy of letter from Mining Officer certifying the leases and total lease area within 500 meters radius around the site to be submitted. PP a copy of letter issued by the Mining Officer vide latter no. 366 dated 25/03/2015 reporting that no mine is operating / proposed within 1000 meters however the information need was for 500 meters. Hence PP may asked to submit the requisite information at the earliest.

43. Case No. – 2283/2014 Shri Vindhyachal Minerals C/o Ved Prakash Pathak, Vill. & Post Dhamna, Tehsil – Rajnagar, Distt. Chhatarpur (MP) (9893668195) Stone Mine, Lease Area – 9.0 ha., at Khasra No.-873 at Village ó Nayagaon (Lakheri) Tehsil ó Rajnagar, Distt. Chhatarpur (MP) Capacity ó 1,90,000 Cum/Year. Application forwarded to SEAC by SEIAA vide letter no. 2762/SEIAA/14 dated: 22/12/2014 Qry- 177th meeting dt. 23/03 /15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Village ó Nayagaon (Lakheri) Tehsil ó Rajnagar, Distt. Chhatarpur (MP) in 9.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the tehsildar & DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 1366 dated 19/11/2014, that no mine is operating / proposed within 500 meter radius around the said no mine. PP has reported that the pit formed after mining shall be developed into a water body.

The caes was considered in the 177th meeting dated 23/03/2015 whereby the PP was asked to submit following information along with the supporting documents:

- a. Detailed plantation scheme along with the names of the local tree-plant species proposed to be planted
- b. The budget reserved for Socio-economic activities and execution of EMP appears to be on lower side hence requires enhancement. Revised activity wise budget to be submitted.
- c. Source of water for the project is not clear, the same to be submitted with permission / NOC from the concerned agency.

PP has submitted the requisite information which was found to be satisfactory and acceptable hence the case was recommended for grant of prior EC subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 190000 m^3 /Year.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 44. Case No. 2149/2014 Shri Devendra Singh S/o Shri Shivcharan Singh, M/s D.S. Company, Village-Rampura, Post-Fatehpur, Dist-Karouli (Raj.)-322241 Prior Environment Clearance for approval of proposed Dhongra River Sand Quarry in an area of 5.500 ha.and

proposed production capacity is 161000 m3/Year at Village-Dhongra, Tehsil-Deosar, District-Singrauli. **Qry-170thmeeting dt. 28/01** /15.

This is a case of mining of river-bed sand mining. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at *Khasra No. -974, Village-Dhongra, Tehsil-Deosar, District-Singrauli (MP)* in 5.500 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no.1860 dated 27/12/2014, that no mine is operating / proposed within 1 Km from the peripheries of the said mine. After deliberations PP was asked to submit response for the following issues:

- Man power and infrastructure details proposed in the project to achieve the targeted production capacity of 1,61,000 m3 / Year.
- The road net-work proposed to be used for evacuation of material from the site supported with a map.
- > Impacts of the activities on river banks and the mitigation proposed to minimize the same.

Response to the above queries has been submitted by the PP and the same was placed before the committee. The submissions made by the <u>PP are satisfactory and acceptable hence the case was recommended for grant of prior EC subject to the following special conditions:</u>

- 1. The amount towards reclamation of the land in MLA shall be carried out through the mining department; the appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 2. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA.
- 3. Plantation shall be carried out on the banks for stabilization of the banks.
- 4. Abstraction of sand shall be as per the approved Mining Scheme but not exceeding 1,61,000 m³ in a year and the depth of mining shall be restricted to 3m or water level, whichever is less.
- 5. Mining shall be carried only between 1st October to 31st May or during non-monsoon period as declared by the State Govt.
- 6. Transportation of sand shall not be carried out through forest area.
- 7. The mining activity shall be done manually with about 180 workers as stated by the PP.
- 8. Heavy vehicles shall not be allowed on the banks for loading of sand.
- 9. The sand shall be transported by small trolleys up to the main transport vehicle.
- 10. Transport vehicles will be covered with taurpoline to minimize dust/sand particle emissions.
- 11. For carrying out mining in proximity to any bridge and/or embankment, appropriate safety zone of 1 Km on upstream as well as on downstream from the periphery of the mining site shall be ensured taking into account the structural parameters, location aspects, flow rate, etc., and no mining shall be carried out in the safety zone.
- 12. No in stream mining shall be allowed.
- 13. The mining shall be carried out strictly as per the approved mining plan and ensure that the annual replenishment of sand in the mining lease area is sufficient to sustain the mining operations at levels prescribed in the mining plan.
- 14. Established water conveyance channels should not be relocated, straightened, or modified.
- 15. If the stream is dry, the excavation must not proceed beyond the lowest undisturbed elevation of the stream bottom, which is a function of local hydraulics, hydrology, and geomorphology.
- 16. After mining is complete, the edge of the pit should be graded to a 2.5:1 slope in the direction of the flow.

17. PP shall take Socio-economic activities in the region through the -Gram Panchayatø 18. EC will be valid for mine lease period subject to a ceiling of 5 years.

45. **Case No.** – 1139/2013 M/s. Guru Granite, Off. Shri Ram Kutir, 18, Shri Krishna **Colony, Tansen Road, Gwalior (MP) 474002** Billaua Metal Stone Quarry, Lease Area – 2.0 Ha. at Khasra No. – 3717/2, Village – Billaua, Tehsil – Dabra, Distt. – Gwalior (M.P.) Capacity – 54,000 Cubic Meter Per Year, Lease Period – 10 Years. Extenssion of ToR Validity ToR issued 121st meeting dt. 28/02/13. Vide letter No. 474 dt. 25/04/13.

The case was discussed in earlier meeting and issued TOR to carry our EIA / EMP vide letter dated 25/04/2013. 6 PP has requested to extend the validity of TOR for one year vide letter no. Nil dated 15/04/2015. Committee agreed to extend the validity of TOR by one year subject to the condition that validity shall not be extended further. The TOR shall therefore lapse on 24/04/2016.

46. **Case No. – 1803/2014** Shri Sushil Chouhan, M/s B.R. Goyal Infrastructure Pvt. Ltd., 3-A, Agrawal Nagar, Near Vikram Tower, Sapna Sangeeta Road, Indore (M.P.) Badgaon Mali Stone/Boulder Quarry with Crusher Lease Area – 2.56 ha. Khasra No. – 498 at Village- Badgaon Mali, Tehsil- Khandwa, District-Khandwa (M.P.) Lease Period – 02 Year, Capacity – 14000 Cu.mt./Year. (Case recommended 153rd SEAC Meeting dated -21/10/2014). Complaints rec. EC Granted letter No. 2970/SEIAA/ dt. 08/01/15.

A complaint was received from Shri Jagannath Mane, Khandwa in connection to the project. The same was placed before the committee. It was observed that the project has already been accorded EC. Hence the complaint papers in original may be forwarded to SEIAA for appropriate action in the matter.

47. **Case No. – 1996/2014** Smt. Neera Raghuvanshi W/o Shri Ranjeet Singh Raghuwanshi, Village-Chikhlikhurd, Tehsil-Chand, District-Chhindwara (MP)-480110 Metal Stone Quarry Lease Area – 1.00 ha., at Khasra No. -17/1, 18/1, 19/1, 19/3, Village- Chikhlikhurd, Tehsil-Chand, District-Chhindwara (MP) Capacity – 5700 Cubic mt./Year. Qry SEAC 164th dt. 07th Jan. 2015.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. -17/1, 18/1, 19/1, 19/3, Village-Chikhlikhurd, Tehsil-Chand, District-Chhindwara (MP) in 1.0 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 5700 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, vide letter no. 2709 dated17/10/2014 that no mines are operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 164th meeting dated 07/01/2015, whereby the scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. The requisite information collected from the concerned Forest Officer vide letter no. 30 dated 22/01/2015 has been submitted by the PP, stating that the project site is free from habitation of any such wildanimals.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> <u>following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 5700 m³/Year and the average depth of the pits shall not be more than 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- **48.** Case No. 2004/2014 Shri Adityaraj Patel, 61, Hanumanganj, Gallabazar, Bhopal (MP)-462001 Metal Stone Quarry Lease Area 3.302 ha.,, at Khasra No. -117, Village-Bandikhedi, Tehsil-Huzur, District-Bhopal (MP) Capacity –8550 Cubic mt./Year.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. -117, Village-Bandikhedi, Tehsil-Huzur, District-Bhopal (MP) in* 3.302 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 8550 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 2063 dated 03/09/2014, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body.

The case was presented in the 164th meeting dated 07/01/2015. Scrutiny of the mining plan revealed the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. The same was submitted by the PP.

PP has submitted a copy of letter issued by Forest department where the DFO, Bhopal has reported vide letter no. 1178 dated 17/03/2015 that no such wild animals are found to near the proposed mine site.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> <u>following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 8550 m³/Year and the average depth of the pits shall not be more than 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 49. Case No. 2038/2014 Shri Virendra Singh Thakur S/o Shri Kumer Singh Thakur, Village-Patariya Chouhan, Tehsil-Ashta, District-Sehore (MP)-466221 Metal Stone Quarry Lease Area – 1.700 ha., at Khasra No.- 5/1, Village-Pataria Chouhan, Tehsil-Ashta, District-Sehore (MP) Capacity – 8550 Cubic mt./Year. Qry SEAC 165th dt. 08th Jan. 2015.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.- 5/1, Village-Pataria Chouhan, Tehsil-Ashta, District-Sehore (MP)* in 1.70 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 8550 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, vide letter no. 5767 dated 13/10/2014 that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body.

STATE EXPERT APPRAISAL COMMITTEE 27th A MINUTES OF 183rd MEETING

The case was considered in the 165th meeting dated 08/01/2015, whereby the scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. The requisite information collected from the concerned Forest Officer vide letter no. 30 dated 22/01/2015 has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> <u>following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.

The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

- Case No. 2083/2014 Shri Dinesh Agarwal, Vijay Nagar, Balaghat Road, Gondiya 54. (MH)-441601 Stone Ouarry Lease Area – 3.237 ha., at Khasra No.-466, 467, Village-Dahedi, Tehsil-Kirnapur, District-Balaghat (MP), Capacity – 28500 Cubic mt./Year.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.-466, 467, Village-Dahedi, Tehsil-Kirnapur, District-Balaghat (MP) in 3.237 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 28500 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, vide letter no. 1466 dated 11/11/2014 that 02 more mines are operating / proposed within 500 meter radius around the said mine, the total lease area being 7.237 Ha. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 166th meeting dated 09/01/2015 whereby the scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit.

PP has submitted a letter from Tehsildar stating that the lease area is more than 250 meters from the forest boundary and therefore NOC from the forest department has already been accorded for the project. Further RO of MPPCB has also verified and submitted a report on status of plantation in the area. It was reported that only Khajur trees are observed and no habitation / highways were observed in 500 meters around the said mine.

- 1. Protection of fauna and flora in and nearby the project site shall be ensured while executing the mining activities.
- 2. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 3. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 4. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 5. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 6. Transportation of material shall be done in covered vehicles.
- 7. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 8. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 9. Curtaining of site shall be done using appropriate media.
- 10. Production of stone boulder shall be as per the mining plan not exceeding $28500 \text{ m}^3/\text{Year}$.
- 11. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 12. Transportation shall not be carried out through forest area.
- 13. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.

- 14. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 15. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 55. Case No. 2087/2014 Shri Gourav Bhanot, Director, M/s BRE Company, 1101, Bhanot House, Gorakhpur, Jabalpur (MP)-482001 Basalt Stone Quarry Lease Area 1.810 ha., at Khasra No.-24, Village-Manegaon, Tehsil-Jabalpur, District-Jabalpur (MP), Capacity 11970 Cubic mt./Year. Qry SEAC 166th dt. 09th Jan. 2015

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.-24, Village-Manegaon, Tehsil-Jabalpur, District-Jabalpur (MP) in 1.810 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 11,970 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, vide letter no. 1898 dated 10/10/2014 that 08 more mines are operating / proposed within 500 meter radius around the said mine, the total lease area being 23.98 Ha. Crusher is not proposed in the lease area. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 166th meeting dated 09/01/2015, whereby the scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. The requisite information collected from the concerned Forest Officer vide letter no. 199 dated 21/01/2015 has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding *11970* m³/Year and average depth of the pits shall not exceed 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.

- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 56. Case No. 2088/2014 Shri Gulab Singh Baghel S/o Shri I.B. Singh Baghel, 244, Sanjeevani Nagar, Garha, Jabalpur (MP)-482001 Basalt Stone Quarry Lease Area – 1.930 ha., at Khasra No.- 26 Village-Khursi, Tehsil-Jabalpur, District-Jabalpur (MP), Capacity – 34200 Cubic mt./Year. Qry SEAC 166th dt. 09th Jan. 2015.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.- 26 Village-Khursi, Tehsil-Jabalpur, District-Jabalpur (MP), in* 1.930 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 34200 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, vide letter no. 1898 dated 10/10/2014 that 08 more mines are operating / proposed within 500 meter radius around the said mine, the total lease area being 23.98 Ha. Crusher is not proposed in the lease area. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 166th meeting dated 09/01/2015, whereby the scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. The requisite information collected from the concerned Forest Officer vide letter no. 198 dated 21/01/2015 has been submitted by the PP, stating that the project site is free from habitation of any such wild animals.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> <u>following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.

- 9. Production of stone boulder shall be as per the mining plan not exceeding 34200 m3/Year and average depth of the pits shall not exceed 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 57. Case No. 1865/2014 Shri K.G. Gupta, M/s K.G. Gupta Infrastructure Pvt. Ltd., 101, Radha Kishan Apartment, 76, Bima Nagar Road, Anand Bazar, Indore (MP)-452001 Stone Quarry Lease Area – 1.27 ha. at Khasra No.–538/1, 538/2, at Vill-Sangwara, Tehsil-Pandhana, District-Khandwa (MP), Capacity - 15,000 Cu.mt/Year Stone (gitti). Case recommended SEAC 157th dt. 27th Dec. 2014. SEIAA Complaints rec.

SEIAA vide letter no. 2714 dt. 19/12/14 has forwarded a complaint received in connection to Case No. 1865/2014. The same was placed before the committee. It was observed that the said case has already been recommended by SEAC through its 157th Meeting dated 27/12/2014 and presently with SEIAA hence the concerned complaint may be examined at SEIAA level before approving EC to the case. Complaint documents may be forwarded to SEIAA for appropriate action in the matter.

58. Case No. - 2100/2014 Shri Vimal Yadav S/o Shri Jagannath Yadav, Village-Ashapura, Tehsil-Mhow, District-Indore (MP) Stone Quarry Lease Area – 2.00 ha. at Khasra No.-170/1, Village-Ashapura, Tehsil-Mhow, District-Indore (MP), Cap.-2500 to 20,000 Cubic mt./Year. 169th meeting dt. 27/01/15

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.-170/1, Village-Ashapura, Tehsil-Mhow, District-Indore (MP) in* 2.00 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no.2029 dated 05/11/2014, that 07 more mine is operating / proposed within 500 meter radius around the said mine the total lease area being 9.756 Ha. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 169th meeting dated 27/01/2015 whereby the PP was asked to submit response to the following queries:

- The material evacuation route from the site up to the main road and the highways along with the present condition of the roads being used or proposed to be used for carrying materials.
- Revised plantation scheme clearly depicted on the lay-out map of lease area along with the budgetary provisions.
- As the mine is operational and PP intents to enhance production from 2500 to 20,000 Cubic mt./Year, status of consents issued by the MPPCB and compliance of the consent conditions with current photographs to be furnished.
- Revised EMP to be submitted considering the actual area.

PP has submitted revised EMP addressing the above issues.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> <u>following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 20000 m³/Year and average depth of the pits shall not exceed 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

59. Case No. - 2110/2014 Shri Bhagchand Nemnani S/o Shri Manikchand Nemnani, Pandhana, Khandwa (MP)-450337 Stone Quarry Lease Area – 4.00 ha., at Khasra No.-282/5, Village-Pandhana, Tehsil-Pandhana, District-Khandwa (MP), Capacity –39,900 Cubic mt./Year. 169th meeting dt. 27/01 /15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.-282/5*, *Village-Pandhana, Tehsil-Pandhana, District-Khandwa (MP)* in 4.00 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 39900 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 169th meeting dated 27/01/2015 whereby the PP was asked to submit response on the following points:

- Comments of concerned Forest Officer not below the rank of DFO, on presence of scheduled animals reported in the mining plan.
- > Post-mine conceptual plan with ultimate land-use planning after the mining is complete.

PP has submitted response to the said points and the same was placed before the committee. The letter no 820 dated 20/04/2015 from Forest department submitted by the PP states no wild animal passes from the project site. The clarification of post-mine land-use has also been submitted by the PP.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> <u>following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding $39900 \text{ m}^3/\text{Year}$.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 60. Case No. 2111/2014 Shri Pramod Kamat, Partner, M/s Jawala Sanghtan Evam Samaj Kalyan Samiti, Ward No. 18, Bhind Road, Gohad, Bhind (MP)-477116 Metal Stone Quarry Lease Area – 3.900 ha., at Khasra No.-834,835, Village-Daang Sarkar, Tehsil-Gohad, District-Bhind (MP), Cap–14,000 Cubic mt./Year. 169th meeting dt. 27/02/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.-834,835, Village-Daang Sarkar, Tehsil-Gohad, District-Bhind (MP)* in 3.900 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 14000 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly

verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 169th meeting dated 27/02/2015 whereby, the scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. Hence PP was asked to submit comments of concerned Forest Officer on presence of scheduled animals reported in the mining plan.

PP has submitted the response through Forest department letter no. 743 dated 23/03/2015 stating that no wild animals are found in the area.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> <u>following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 14000 m3/Year.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

61. Case No. - 2114/2014 Shri Sunil Aarya, Bazar Chowk, Chicholi, District-Betul (MP) - 460001 Stone Quarry Lease Area – 1.981 ha., at Khasra No.-367/1,367/2, Village-Chudiya, Teh-Chicholi, District-Betul (MP) Capacity – 19950 Cubic mt./Year. SEAC 169th dt. 27th Jan. 2015.

The case was returned to SEIAA based on the submissions and presentation made before the committee as per the decision taken during the 169th meeting dated 27/01/2015. Hence the representation submitted by the PP for re-considering the matter may be forwarded to SEIAA for appropriate action in the matter.

62. Case No. - 2118/2014 Shri Rishabh Jain S/o Shri Sunil Jain, Village & Tehsil-Manawar, Dhar (MP)-454446 Basalt Stone & Murrum Quarry Lease Area – 2.00 ha., at Kh No.- 230/1, Vill. -Piplya, Teh-Manawar, District-Dhar(MP), Capacity-13832Cubic mt./Year.(Basalt stone) & Cap-2766Cubic mt./Year (Murram) 169th dt. 27th Jan. 2014.

This is a case of mining of stone bolder & murrum. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. - 230/1, Village-Piplya, Tehsil-Manawar, District-Dhar (MP)* in 2.00 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is *13832 Cubic mt. /Year. (Basalt stone) & Cap-2766Cubic mt./Year (Murram)*

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 169th meeting dated 27/01/2015 whereby the scrutiny of the mining plan reveals the presence of a School at about 415 meters and habitation at about 390 meters. Hence PP was asked to submit, expected impacts from the blasting and other mining activities on the nearby habitation and the precautions that will be taken for safety of school and habitation. PP has submitted that the village / school approach roads for the public is separate away from the mine. However, appropriate precautions shall be observed during mining operations such as provision of alarm, fixed time for blasting, water spraying, controlled blasting etc.

Based on the submission of the PP the <u>case was recommended for grant of prior EC subject to the</u> following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 13832 Cubic mt. /Year. & Murrum-2766Cubic mt./Year.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

63. **Case No.** – **2161/2014** Smt. Maya Joshi W/o Shri Subhash Joshi, 30, Jawahar Marg, Town & Dist-Barwani (MP)-451551 Basalt Stone Quarry Lease Area - 2.00 ha. at Khasra No. -51/1, 52/1, Village-Lonesara Bujurg, Tehsil-Barwani, District-Barwani (MP). Capacity - 10050 *Cum/Year.* 170th meeting dt. 28/01/15

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. -51/1, 52/1, Village-Lonesara Bujurg, Tehsil-Barwani, District-Barwani (MP). in 2.00 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no.688 dated 02/09/2014, that 02 more mines are operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body. Crusher for sizing of stone is proposed in the lease area. The EMS and other submissions made by the PP were found to be satisfactory and acceptable. The case was considered in the 170th meeting dated 28/01/2015. Whereby the scrutiny of mining plan revealed that the contour information provided in the conceptual plan of the Mining Scheme does not matches with the drawings presented before the committee. Also the NOC from the Forest department on the points in prescribed format was missing. Hence PP was asked submit the above.

PP has submitted the information pertaining to forest department but the information pertaining to conceptual plan has not yet been submitted. The same may asked for submission from the PP.

64. **Case No.** – **2165/2014** Shri Rajesh Kumar Gupta, Proprietor, M/s Kesharwani Stone Crusher, Town-Beohari, Shahdol (MP)-484774 Basalt Stone Quarry Lease Area - 2.00 ha. at Khasra No. – 224/1. Capacity -22800 Cum/Year, Village-Datari, Tehsil-Jaisingh Nagar, District-Shahdol (MP). 170th dt. 28th Jan. 2014.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. - 224/1. Capacity - 22800 Cum/Year, Village-Datari, Tehsil-Jaisingh Nagar, District-Shahdol (MP) in 2.00 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 22800 m3/ Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 18 dated 07/11/2014, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body. Crusher for sizing of stone is proposed in the lease area.

The case was considered in the 170th meeting dated 28/01/2015 whereby the scrutiny of the mining plan revealed that after mining the mined out area is proposed to be converted in to a pit is reported to be 1.70 Ha, the area under dumps is 0.010 ha and the area under plantation is 0.330 Ha total comes out to be 2.04 Ha: whereas total lease area is only 2.0 Ha. PP was asked to submit clarification on the issue.

PP has submitted a clarification in above context. The same was placed before the committee and found to be satisfactory and acceptable. Based on the submission made by the PP the case was recommended for grant of prior EC subject to the following special conditions:

1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.

- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 22800 Cubic mt. /Year and the average depth of the pits shall not exceed 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

65. Case No. – 2166/2014 Shri Rajeev Shivhare S/o Shri Rajkumar Shivhar, Village-Dhooma, Tehsil-Lakhnadon, Seoni (MP)-480886 Basalt Stone Quarry Lease Area – 2.00 ha. ha. at Khasra No. – 13/2., Village-Purwa Ryt, Tehsil-Lakhnadon, District-Seoni (M.P.) Capacity -11400 Cum/Year

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. – 13/2., Village-Purwa Ryt, Tehsil-Lakhnadon, District-Seoni (M.P.) in* 2.00 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 11400 m3/ Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 2429 dated 28/10/2014, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body. Crusher for sizing of stone is proposed in the lease area.

The case was considered in the 170th meeting dated 28/01/2015 whereby the scrutiny of the mining plan revealed that after mining the mined out area is proposed to be converted in to a pit in an area of 2.0 Ha, the area under dumps is and plantation is reported to be 0.04 ha & 0.660 Ha respectively. The total land use after mining therefore comes out to be 2.7 Ha as against total lease area of 2.0 Ha. PP was therefore asked to submit clarification on the issue.

PP has submitted a clarification in above context. The same was placed before the committee and found to be satisfactory and acceptable. Based on the submission made by the PP <u>the case was</u> recommended for grant of prior EC subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 22800 Cubic mt. /Year and the average depth of the pits shall not exceed 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 66. Case no. 2185/2014 Smt. Asha Sharma w/o Shri Suresh Sharma, Ahukhana Ghas Mandi, Gwalior (MP)-477001 Prior Environment Clearance for approval of proposed Stone Quarry in an area of 2.00 ha. at Village-Billaua, Tehsil-Dabra, District-Gwalior (MP) Qry- 171st meeting dt. 29/01/15

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. – 3619/3K, Village-Billaua, Tehsil-Dabra, District-Gwalior (MP) in* 2.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 23 dated 07/10/2014, that 05 more mines are operating / proposed within 500 meter radius around the said mine with total lease area of 9.625 Ha. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. The case was considered in the 171st meeting whereby the Committee decided to obtain report from RO on location/distance of the proposed site with respect to the major cluster of mines of Bilaua region, before taking decision in the matter.

A report from RO and the Revenue department has been received in above context. It is reported that the proposed mine site is more than 500 meters away from the major cluster if Bilaua region.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding *15894* Cubic mt. /Year and the average depth of the pits shall not exceed 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 67. Case No. 2194/2014 Shri Sameer Tiwari S/o Shri Babulal Tiwari, Towh-Rehli, Sagar (MP)-470227 Stone Quarry Lease Area – 1.00 ha., Khasra No. -7/1, Capacity -8550 Cum/Year, Village-Khejrabaag, Tehsil-Sagar, District-Sagar (MP) Qry SEAC 171st dt. 29th Jan. 2014.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. -7/1, Capacity -8550 Cum/Year, Village-Khejrabaag, Tehsil-Sagar, District-Sagar (MP). in* 1.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan and other requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 171st meeting dated 29/01/2015 whereby the Pp was asked to submit response to the following:

- After mining the total of area-wise break-up including the mined out area proposed to be converted in to a water-reservoir and the area under plantation is reported to be 1.07 Ha; whereas total lease area is only 1.00 Ha.
- Requisite information in the prescribed format duly verified by the DFO.

PP has submitted response to the above queries and the same was placed before the committee.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 8550 Cubic mt. /Year and the average depth of the pits shall not exceed 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 68. Case No. 2209/2014 Shri Jitendra Patidar, Owner, 107, Guradiya Dida, Mandsaur (MP) Basalt Stone Quarry Lease Area –3.010 ha., at Khasra No. 409/4,409/5,409/6, Village Khokhra, Tehsil-Malhargarh, Distt.-Mandsaur (MP), Capacity -8000 Cum/Year, 174th meeting dt. 24/02/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No. – 409/4,409/5,409/6, Village - Khokhra,Tehsil-Malhargarh, Distt.-Mandsaur (MP) in* 3.010 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 174th meeting dated 24/02/2015 whereby the PP was asked to submit following information along with supporting documents: Details of mines proposed / operating within 500 meter radius around the proposed mine duly certified from the concerned Mining Officer.

PP has submitted the requisite information. Mining officer has reported vide letter no. 549 dated 06/04/2015 that 05 mines are operating / proposed with in 500 meter radius around the said mine and the total lease area is 7 Ha.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 8000 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- **69.** Case No. 2298/2014 Shri Arjun Singh Chouhan S/o Shri Soman Singh Chouhan, Village-Doulatganj, Tehsil-Taal, District-Ratlam (MP) 2805 dt. 27-12-2014 Basalt Stone Quarry Lease Area -2.00 ha., at Khasra No. -04, Capacity-11400Cu.mt./Year, Village-Kharwakalan, Tehsil-Taal, District-Ratlam (MP) 178th meeting dt. 24/03 /15.

SEIAA has forwarded a clarification submitted by the PP on presence of wild animals in the area where the project is proposed. The dsame was placed before the committee while scrutiny of the matter it was observed that the case was considered in the 178th meeting dated 24/03/2015 whereby the scrutiny of the case reveals that the Mining Plan and submitted documents has several discrepancies based on the same the <u>case was returned to SEIAA for delisting</u>. Hence the original paper may also be forwarded to SEIAA.

70. Case No. – 2262/2014 Shri Rizwan Jumma, Mata Mandir, Lalbagh, Chhindwara (MP) Stone Quarry Lease Area – 2.00 ha., at Khasra No.–125, Village-Jhanda, Tehsil-Chhindwara, District- Chhindwara (MP) Capacity-11400Cu.mt./Year, 175th meeting dt. 25/02/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at *Khasra No.-125, Village-Jhanda, Tehsil-Chhindwara,*

District- Chhindwara (MP) in 2.00 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. Mining Officer vide lettrer no. 116 dated 24/02/2015 has reported that no mine is operating / proposed with in 500 meter radius around the said mine.

The case was considered in the 175th meeting whereby the scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue. The letter issued by the Tehsildar was not clear hence PP is required to get the same duly verified with original letter and re-submit. The requisite information was submitted by the PP and placed before the committee.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 11400 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 71. Case No. 2267/2014 Shri Rizwan Jumma, Mata Mandir Lalbagh Tehsil Chhindwara, Distt. Chhindwara (MP)- (M-9229228268) Stone Quarry Lease Area – 1.685 ha., at Khasra No.-41/1 at Village ó Jhanda, Tehsil ó Chhindwara, Distt. Chhindwara (MP), Capacity ó 11,400 Cubic mt./Year.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.-41/1 at Village ó Jhanda, Tehsil ó Chhindwara, Distt. Chhindwara (MP) in 1.685 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the tehsildar & DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 116 dated 24/02/2015 that **no** mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the site has a hilly terrain and pit will be formed after mining. The pit shall be developed into a water body.

The case was considered in the 177th meeting dated 23/03/2015 whereby the PP was asked to submit following:

- 1. Detailed plantation scheme including names of plant species and budget for the same.
- 2. Socio-economic activity wise revised and enhanced budget.
- 3. Water requirement with source and necessary permission / consent from the competent authority.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 11400 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

STATE EXPERT APPRAISAL COMMITTEE 27th April 2015 MINUTES OF 183rd MEETING

72. Case No. - 2276/2014 Shri Aneesh Chourasia S/o Shri Mitthulal Chourasia, House No. 10 Ward No. 10 Katngi, Tehsil - Patan, Distt. Jabalpur (MP) Bilsara Stone Deposit Lease Area - 2.0 ha., Lease Period 10 Year at Khasra No.-337 at Village-Bilsara, Tehsil - Kundam, Distt. Jabalpur (MP) Capacity - 14250 Cubic mt./Year. 177th meeting dt. 23/03/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at at Khasra No.-337 at Village-Bilsara, Tehsil ó Kundam, Distt. Jabalpur (MP) in 2.0 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area. The proposed production is 14250 m3 / year.

The case was considered in the 177th meeting dated 23/03/2015 whereby the scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence PP was asked to submit comments of concerned Forest Officer on this issue.

PP has submitted a clarification in this regard obtained from forest department vide letter no. 3694 dated 18/03/2015 stating that no wild habitation is observed near the site.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 14250 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

73. Case No. – 2305/2014 Smt. Tripti Mittal W/o Shri Jitesh Mittal, Village – Tanodiya, Tehsil – Agra Malwa, Distt. Agar Malwa (MP) Basalt Stone Quarry Lease Area – 2.00 ha., at Khasra No.-336 Min 52, Lease Period Ten Year at Village-Tanodiya, Tehsil ó Agar Malwa, Distt. Agar Malwa (MP), Capacity ó 5700 Cum/Year. 178thmeeting dt. 24/03 /15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at at Khasra No.-336 Min 52 at Village-Tanodiya, Tehsil ó Agar Malwa, Distt. Agar Malwa (MP) in 2.00 ha. The project requires prior EC before commencement of any activity at site.

The case was considered in the 178th meeting dated 24/03/2015 whereby the PP was asked to submit following information for further necessary decision in the matter-

- Letter from Mining Officer certifying the leases and total lease area within 500 meters radius around the site
- Scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue.

PP has submitted a copy of the letter issued by the mining officer. Mining Officer vide letter no. 561 dated 03/12/2014 has reported that no mine is operating / proposed within 500 meters around the said mine. Clarification on the issue of scheduled animals in the proposed area has not been submitted by the PP. The same may be asked from the PP.

74. Case No. – 2349/2014 Shri Banke Singh Parihar, Ward No. 14, Waraseoni, Balaghat (MP) Sand Quarry Lease Area – 0.405 Ha., at Khasra No. 706 at Village-Budbuda, Tehsil-Waraseoni, District-Balaghat (MP) Capacity 6 12,000 Cubic meter/Year. 179th meeting dt. 25/03/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. 706 at Village-Budbuda, Tehsil-Waraseoni, District-Balaghat (MP) (MP), in 0.405 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar. It was reported by the concerned Mining Officer of mining department vide letter no. 197dated 19/02/15, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 179^{th} meeting dated 25/03/2015 whereby the PP asked to submit information from DFO in prescribed format.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.

- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 12000 Cubic mt. /Year and the average depth of the pits shall not exceed 6 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

75. Case No. – 2352/2014 Shri Bal Krishna Dwivedi, SBI Colony, Ward No. 33, Balaghat (MP) Sand Quarry Lease Area – 3.465 Ha., at Khasra No. 75, at Village-Jagpur, Tehsil-Waraseoni, District-Balaghat (MP) Capacity ó 61,000 Cubic meter/Year. 179th meeting dt. 25/03/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. 706 at Village-Budbuda, Tehsil-Waraseoni, District-Balaghat (MP) (MP), in 0.405 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar. It was reported by the concerned Mining Officer of mining department vide letter no. 197dated 19/02/15, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 179th meeting dated 25/03/2015 whereby the PP was asked to submit the information from DFO in prescribed format. The requisite information has been submitted by the PP and placed before the committee.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA

- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 61000 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 76. Case No. 2361/2015 Shri Ganesh Singh Patel S/o Shri Mithai Lal Singh, Village-Daldal, Tehsil-Kotma, District-Anuppur (MP)-448440 Basalt Stone Quarry Lease Area 2.048 Ha., at Khasra No. 54, 55, at Village-Daldal, Tehsil-Kotma, District-Anuppur (MP) Capacity 6980 Cum/Year. 180th meeting dt. 26/03 /15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. 54, 55, at Village-Daldal, Tehsil-Kotma, District-Anuppur (MP) in 2.048 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no.1080 dated 31/10/2014, that no mine is operating / proposed within 500 meter radius around the said mine.

Presentation & submissions made by the PP were discussed in the meeting. The EMS and other submissions made by the PP were found to be satisfactory and acceptable.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no.1080 dated 31/10/2014, that no mine is operating / proposed within 500 meter radius around the said mine. Presentation & submissions made by the PP were discussed in the meeting. The EMS and other submissions made by the PP were found to be satisfactory and acceptable. However, scrutiny of the project documents revealed that the above lease area is within the 10 Kms distance from the interstate boundary but precise details about distance is not mentioned in the concerned certificate. PP was asked to clarify the same and submit exact distance certificate from the interstate boundary from the concerned competent authority. It was clarified by the PP that this the only mine operating and no mine is operating within in 500 meter around this mine the same has been certified by the Mining Officer, hence GC is not applicable to the project. Clarification submitted in this context was satisfactory and acceptable hence the case was recommended for grant of prior EC subject to the following special conditions:

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 6980 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- Case No. 2370/2015 Shri Indra Jeet S/o Shri S.K. Choudhary Road, MIG 25 Harde, Distt-Harda (M.P.)-461331 Basalt Stone Quarry in 2.731 Ha. at Khasra No.508/1, 508/2, Lease Period Ten Year at Village-Choukhdi, Tehsil-kirkiya Distt-Harda (M.P.), Capacity – 14700 Cum/Year. 180th meeting dt. 26/03/15

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.508/1, 508/2 at Village-Choukhdi, Tehsil-kirkiya Distt-Harda (M.P.), (MP) in 2.731 ha. The project requires prior EC before commencement of any activity at site. PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. N.A. dated 22/12/2014, that 04 mines are operating / proposed within 500 meter radius around the said mine and the total lease area is 12.312 ha. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 180th meeting dated 26/03/2015 whereby scrutiny of the mining plan revealed presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. SEIAA has forwarded a revised Mining Plan being submitted by the PP to SEIAA where the issue of wild animals has been rectified.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 14700 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 78. Case No. 2393/2015 Shri Suhail Khan, 27, Chataipura, Budhwara, Bhopal (MP)-462001 (M-9425010229) Black Stone Quarry 1.92 ha. at Khasra No. 435, 436 at Village-Jaitpura, Tehsil-Bairasia, District-Bhopal (MP) Capacity- 8,550 cum/year. 180thmeeting dt. 26/03/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. 435, 436 at Village-Jaitpura, Tehsil-Bairasia, District-Bhopal (MP) in 1.92 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 73 dated 27/01/2015, that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 180th meeting dated 26/03/2015 whereby the scrutiny of the mining plan revealed presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. PP has submitted a copy of letter issued by the concerned Forest Officer stating that no wild animals are found in the area.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 8550 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 79. Case No. 2396/2015 Shri Brijbhan Singh, Village-Niwari, Tehsil-Khurai, District-Sagar (MP)-470117. Stone Quarry in an area of 2.80 ha. (12,084 cum/year) at VillageBikorkalan, Tehsil-Malthon, District-Sagar (MP). 181st meeting dt. 27/03/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Village-Bikorkalan, Tehsil-Malthon, District-Sagar (MP). The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan and requisite information in the prescribed format duly verified by the DFO.

Presentation & submissions made by the PP were discussed in the meeting. The EMS and other submissions made by the PP were found to be satisfactory and acceptable. The allowable depth as per mining plan is 6 meters.

The case was considered in the 181^{st} meeting dated 27/03/2015 whereby the PP was asked to submit the letter from Mining Officer certifying the leases within 500 meters radius around the site. The same has been submitted by the PP and placed before the committee. Mining Officer vide letter no. 259 dated 13/04/2015 has reported that 02 more mines are proposed with in 500 meters around the said mine with total lease area of 4.80 Ha.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 12084 Cubic mt. /Year and the average depth of the pits shall not exceed 15 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 80. Case No. 2413/2015 Shri Naved Khan S/o Shri Abdul Baheed Khan, Azaz Ward, Kandeli, Town & Dist-Narsinghpur (MP)-487001 Basalt Stone Quarry in an area of 1.00 ha. (5,700 cum/year) at Village-Barpani, Tehsil-Narsinghpur, District- Narsinghpur (MP) 181th meeting dt. 27/03/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Village-Barpani, Tehsil-Narsinghpur, District-Narsinghpur (MP) in 1.00 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 983 dated: 28/11/2014, that one mine is operating / proposed within 500 meter radius around the said mine and the total lease area is 2.01 ha.

The case was considered in the 181st meeting dated 27/03/2015 whereby after scrutiny of the Mine Plan the PP was asked to obtain comments of concerned DFO on the presence of scheduled animals and submit the same to SEAC.

Based on the submission made by the PP <u>the case was recommended for grant of prior EC</u> <u>subject to the following special conditions:</u>

1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.

- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 5700 Cubic mt. /Year and the average depth of the pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- Case No. 2407/2015 Shri Monu Yadav S/o Shri Rajendra Yadav, Town & Post-Shahganj, Teh-Budhni, Sehore (MP)-466445 Basalt Stone Quarry in an area of 1.460 ha. (14,250 cum/year) at Village-Panari, Tehsil-Budhni, District-Sehore (MP). 181st meeting dt. 27/03/15.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Village-Panari, Tehsil-Budhni, District-Sehore (MP) in 1.460 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 8077 dated 19/12/2014, that one more mine is operating / proposed within 500 meter radius around the said mine and the total lease area is 2.953 ha. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 181st meeting dated 27/03/2015 whereby after scrutiny of the Mine Plan the PP was asked to obtain comments of concerned DFO on the presence of scheduled animals and submit the same to SEAC.

Based on the submission made by the PP <u>the case was recommended for grant of prior EC</u> <u>subject to the following special conditions:</u>

1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.

- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 14250 Cubic mt. /Year and the average depth of the pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

82. Case No. – 1924/2014 Shri Manish Kumar Gupta, Chhoti Bazar, Jhanda Chouraha, Banda (UP)-210001- Prior Environment Clearance for approval of proposed Sand Quarry in River Ken Khasra No. 55 at Village-Mohana, Tehsil-Ajaygarh, District-Panna (MP), Lease Area -2.00 ha., Capacity - 69595 Cubic mt. /Year.

This is a case of sand mining from river Ken. The application for prior EC was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No. 55 at Village-Mohana, Tehsil- Ajaygarh, District-Panna (MP) in 2.00 Ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer, that no mine is operating/proposed within 1 Km around the proposed project site. The submissions made by the PP pertaining to mining method, transportation and the CSR activity are satisfactory. It was further noted that as per the DFO¢s report the Ken Ghariyal Sanctuary is 5.75 Km from the project boundary. Committee is of the view that as the project site is located within 10 km of PA, the provisions of MoEF Circular dated 20/08/2014 is applicable. Thus, PP was asked to obtain comments from the CWLW of M.P. The same has not been submitted by the PP till date. A reminder may be issued to the PP of submission of the same at the earliest.

83. Case No. – 2208/2014 Smt. Rajni Tiwari, Owner, Village-Dulari, Tehsil-Jaisinghnagar, Shahdol (MP) Basalt Stone Quarry Lease Area –3.416 ha., at Khasra No. 5/1-, Capacity - 8550 Cum/Year, Village-Chuhaitola, Tehsil-Jaisinghnagar, Shahdol (MP) 175th dt. 25th Feb. 2015.

The case was considered in the 174^{th} meeting where representative of PP appeared for deliberation. However, he did not have the authorization from the PP; The case was deferred for

subsequent meeting. PP has requested for consideration of the case hence committee decided to call the PP in coming meetings.

84. Case No. – 1852/2014- Shri Anil Nair, Project Manager, M/s Madhav (Sihora-Silodi Corridor) Highway Pvt. Ltd., 28-29, Sai Manglam Colony, Khitola Tiraha, Sihora, District-Jabalpur (M.P.))-462011 Chikhli Stone/Boulder Deposit Quarry Lease Area – 2.06 ha. at Khasra No. – 12, 14, at Village-Chikhli, Tehsil-Kundam, District-Jabalpur (M.P.) Capacity: 102600 Cu.mt/Year, Lease Period- 2 Year.

The case was recommended in the 156th meeting for production capacity of 11400 m3/Y. SEIAA returned the case to re-check the reduced production capacity as recommended by SEAC. The scrutiny of the matter reveals that the production capacity quoted in the said minutes of meeting was due to typographic error hence the same be read as ó

-Production of stone boulder shall be as per the mining plan not exceeding 1,02600 m³/Year and maximum average depth of pits shall not exceed 12 meters. ϕ

85. Case No. 1441/2013- Shri Moti Singh Karara S/o Sh. Bheru Singh Karara, Village-Shadipura, P.O. – Dudhana, Tehsil – Mo. Barodia, Distt. - Shajapur, (M.P.)- 465226 - Stone Mine Lease Area – 1.0 Ha. at Khasra No. – 16, Village – Sadankheri, Tehsil –Mo. Barodiya, Distt. – Shajapur (M.P.). Capacity – 6,000 Cubic Meter Per Year, Lease Period - 10 Year. Abs. 129 Meeting dt. 27/04/13.

The case was recommended in the 149^{th} SEAC Meeting for production capacity of 1000 m3/Y as per the demand of PP in the application. SEIAA has forwarded the Mining Plan submitted by the PP for reconsideration of the production capacity based on mining plan. The case was examined in light of mining plan and **recommended** for the production capacity as per the mining plan not exceeding 6000 m3 / Year and the average depth of pits shall not exceed 6 meters. Other conditions remain unaltered.

86. Case No. 1148/2013- Shri Shachin Chowdhary, Bhanwani road, Kanchan bagh colony, Sanawad, Distt. Khargon- (M.P) 451111- Proposed Stone mine in an area of 1.5 Ha for production capacity 2500 m3 per year at Khasra No. 208/71 at Village- Dhaba, Tehsil-Kesrawad Distt. Khargon, (M.P)

The case was approved for production capacity of 1200 m3/Y based on the application of the PP and in absence of Mine Plan. SEIAA has forwarded the Mining Plan approved for production capacity of 5500 m3/Y along with a request of the PP for enhancement of production capacity from 1200 to 2500 m3/Y. <u>After examining the case in light of the Mining Plan committee recommended the case for - production capacity as per the mining plan not exceeding 2500 m3 / Year and the average depth of pits shall not exceed 6 meters. Other conditions remain unaltered.</u>

87. Case No. 1281/2013- Smt. Indu Bai Karade, W/o Shri Ashok Karade Ward NO. 1 Opp. Bus Stand Nagpur Raod, Linga, Tehsil – Mohkhed Distt- Chhindwara (M.P) 6 Proposed stone- boulder quarry in an area of 1.0 Ha prod. Capa- 5700 m3/Year.

The case was approved for production capacity of 1000 m3/Y based on the application of the PP and in absence of Mine Plan. SEIAA has forwarded the Mining Plan approved for production capacity of 5700 m3/Year along with a request of the PP for enhancement of production capacity from 1000 to 5700 m3/Year. After examining the case in light of the Mining Plan committee recommended the case for - production capacity as per the mining plan not exceeding 5700 m3/Year and the average depth of pits shall not exceed 6 meters. Other conditions remain unaltered.

88. Case No. 797/2012- Shri Vipin Sharma R/O 351, EWS, Mukharjee Nagar, Distt. Dewas (M.P) – 455001- Proposed Stoen/Boulder Mine in an area of 2.0 Ha production capacity-37674MT/Year (14000 m3/Year).

The case was approved for production capacity of 1000 m3/Y based on the application of the PP and in absence of Mine Plan. SEIAA has forwarded the Mining Plan approved for production capacity of 37674MT/Year (14000 m3/Year) along with a request of the PP for enhancement of production capacity from 1000 to 37674MT/Year (14000 m3/Year). After examining the case in light of the Mining Plan committee recommended the case for - production capacity as per the mining plan not exceeding 37674MT/Year (14000 m3/Year) and the average depth of pits shall not exceed 6 meters. Other conditions remain unaltered.

89. Case No. 2334/2015- Case No. - 2334/2015 Shri Krishnan Gopal Krishnan, HS&E Manager, M/s Proctor & Gamble Home Products Limited, Plot No. 182, Sector-A, Industrial Area, Mandideep, Raisen- for 9510 KVA Diesel Generators sets at Proctor & Gamble(P&G) site at Plot No.- 182-186, Ind.Area - Mandideep Distt. –Raisen-M.P.) Factory Area – 245584 m2, DG Set Area - 721.24 m2, Village-Satlapur & Mandideep

PP had requested for withdrawal of applcation in the light of MoEF Circular dated 17/03/2015 sating that DG sets do not attract the provisions of EIA Notification. The PP may be allowed to withdraw the application and the case may be delisted.

90. Case No. 2138/2014- Shri Premchandra Mishra, M/s Mishra Stone Crusher, Budhar, Shahdol (MP) Basalt Stone Quarry Lease Area – 1.282 ha., at Khasra No.-685/1, 685/2, 686/1, 686/2, 987/1, 987/2, Village-Jarwahi, Tehsil-Budhar, District-Shahdol (MP), Capacity –5700 Cubic mt./Year.

The case has already been recommended and forwarded to SEIAA. PP has submitted a copy of revised chapter of the Mine Plan as clarification of the query regarding presence of scheduled animals in the project site, through SEIAA (letter no. 3389 dated 04/02/2015) the original letter with information may be forwarded to SEIAA for necessary action.

91. Case No. - 2096/2014 Shri Satish Sharma, Rajgarh, District-Dhar (MP) Basalt Stone Quarry Lease Area – 2.50 ha., at Khasra No.-563/1, Village-Kanjrota, Tehsil-Sardarpur, District-Dhar (MP), Capacity –11400 Cubic mt./Year.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.-563/1, Village-Kanjrota, Tehsil-Sardarpur, District-Dhar (MP)* in 2.5 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 11400 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, that 02 more mines are operating / proposed within 500 meter radius around the said mine; the total lease area being 7.5 Ha. PP has reported that the pit formed after mining shall be developed into a water body.

The case was considered in the 169th meeting whereby scrutiny of the mining plan revealed the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. PP was asked to obtain comments of concerned DFO on this issue and submit. SEIAA has forwarded the clarification

submitted by the PP in this regard. The submitted information was found to be satisfactory and acceptable.

Based on the submission made by the PP <u>the case was recommended for grant of prior EC</u> <u>subject to the following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 11400 Cubic mt. /Year and the average depth of the pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- 92. Case No. 2144/2014- Shri Ram Kishore Pateriya S/o Shri Ram Sevak Pateriya, Village-Bairwar, Teh & District-Tikamgarh (MP)-472001 Stone Quarry Lease Area-4.00 ha. Capacity-8820 Cu.mt./Year, at Khasra No. -228/2/1, Village-Srinagar Bhata, Tehsil-Tikamgarh, District-Tikamgarh (MP.) D.F.O-Yes, Th-Yes, Minig Letter No. & Date-1433/14, 22/10/14, No. of Mines in 500Mt-1, Total Area-8.00Ha., Letter Issued by-.M.O.

The case has already been recommended and forwarded to SEIAA. PP has submitted a copy of letters issued by the forest department regarding issue of scheduled animals in the project site, through SEIAA (letter no. 3556 dated 12/02/2015) the original letter with information may be forwarded to SEIAA for necessary action.

93. Case No. 2074/2014- Shri Dinesh Chandra Gupta S/o Shri Jagdish Prasad Gupta, Tehsil-Sardarpur, District-Dhar (MP)-454111 Basalt Stone Quarry Lease Area – 2.00 ha., at Khasra No.-645, Village-Morgawan, Tehsil-Sardarpur, District-Dhar (MP), Capacity – 14700 Cubic mt./Year

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.-645, Village-Morgawan, Tehsil-Sardarpur,

District-Dhar (MP) in 2.0 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 14,700 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department, vide letter no. 6037 dated 04/09/2014 that no mine is operating / proposed within 500 meter radius around the said mine. PP has reported that the pit formed after mining shall be developed into a water body. The EMS and other submissions made by the PP were found to be satisfactory and acceptable.

The case was considered in the 166th meeting whereby scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. SEIAA has forwarded the response of PP in this context. DFO has stated that no wild animals are found in the area.

Based on the submission made by the PP <u>the case was recommended for grant of prior EC</u> <u>subject to the following special conditions:</u>

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 14700 Cubic mt. /Year and the average depth of the pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

94. Case No. - 1723/2013 – M/s ACC Limited, Kaymore Cement Works, P.O.- Kymore, Distt.- Katni (M.P.) – 483880 Badari Limestone Mine at Old Khasra No.- 415, 416/1k, 416/3k, New Khasra No. – 18P & 63, Village- Badari, Tehsil- Vijayraghavgarh, Distt. – Katni (M.P.) Capacity – 60000 MTPA, Lease Area - 1.093 Ha., <u>ToR.</u>

The case was considered in the 142^{nd} SEAC meeting and TOR was approved for the project to carry out EIA / EMP. The case was delisted by SEIAA in light of MoEF Notification dated 09/092013. Again the case has been re-listed by the SEIAA; hence TOR if not issued earlier may be released by SEAC.

95. Case No. 2213/2014- Shri T. Sagar, Senior Manager, M/s TNR Infra Project Ltd., Hyderabad, Hall Mukam Sakariya Camp, Panna (MP)-488333 Badagaon Sand Stone & Murram Quarry Lease Area –2.00 ha., at Khasra No.- 872, Capacity -28434 Cum/Year (Sandstone) & Capacity-18307 Cum/year(Murram), Vill-Badagaon, Tehsil - Devendranagar, District-Panna (MP)- Captive mining for Bamitha-Satna Road construction. Lease period for 02 years.

The case was considered and recommended in the 171st meeting. SEIAA has returned the case pointing out the mistakes made in the production capacity of the project. Examination of the matter revealed that the production capacity in the recommendation has been quoted incorrect due to typographic error. The condition pertaining to production capacity may be read as follows:

 \therefore Production shall be as per the mining plan not exceeding following- stone boulder- 28434 m³/year and murrum *18307 m3/Year*.

96. Case No. - 2101/2014 Shri Vivek Mehta S/o Shri Sudesh Mehta, Behind LIC Office, Khandwa (MP)-450001 Stone Quarry Lease Area 1.70 ha. at Khasra No.-1542/2, Village-Borgaon Bujurg, Tehsil-Pandhana, District-Khandwa(MP), Capacity-15,000Cubic mt./Year. 169th meeting dt. 27/01/15

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located *at Khasra No.-1542/2*, *Village-Borgaon Bujurg, Tehsil-Pandhana, District-Khandwa(MP) in* 1.70 ha. The project requires prior EC before commencement of any activity at site. Proposed production capacity is 15000 m3 / Year.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. PP has reported that the pit formed after mining shall be developed into a water body.

The case was dealt in the 169th meetingdated 27/01/2015 whereby after deliberation and scrutiny of the submissions PP was asked to submit response to the following queries:

- Details of the unused area to be furnished.
- Revised plantation scheme clearly depicted on the lay-out map of lease area along with the budgetary provisions.
- As the mine is operational, status of consents issued by the MPPCB and compliance of the consent conditions with current photographs to be furnished.
- Revised EMP to be submitted considering the actual area.
- Certification from the concerned Mining Officer of mining department regarding no. of mine operating / proposed within 500 meter radius around the said mine.

PP has submitted the response to the above points with supporting documents.

Based on the submission made by the PP <u>the case was recommended for grant of prior EC</u> <u>subject to the following special conditions:</u>

1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.

- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 15000 Cubic mt. /Year and the average depth of the pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.

97. Case No. – 2258/2014 Shri Ravi Sahu S/o Shri Premchand Sahu, Mahaveer Ward, Multai, Betul (MP) Basalt Stone Quarry Lease Area- 0.600 ha. at Khasra No.- 12/1, Village-Chothiya, Tehsil-Multai, District-Betul (MP) Capacity ó 4,560 Cubic meter/Year. Qry SEAC 175th dt. 25th Feb. 2015.

This is a case of mining of stone bolder. The application was forwarded by SEIAA to SEAC for appraisal. The proposed site is located at Khasra No.- 12/1, Village-Chothiya, Tehsil-Multai, District-Betul (MP) Capacity ó 4,560 c ubic meter/year. in 0.600 ha. The project requires prior EC before commencement of any activity at site.

PP has submitted a copy of approved Mining Plan, letter from Mining Officer certifying the leases within 500 meters radius around the site and requisite information in the prescribed format duly verified by the Tehsildar and DFO. It was reported by the concerned Mining Officer of mining department vide letter no. 711 dated 18/11/2014, that 01 more mine is operating / proposed within 500 meter radius around the said mine with total lease area of 1.003 Ha. PP has reported that the pit formed after mining shall be developed into a water body. Crusher is proposed in the lease area.

The case was considered in the 175th meeting whereby scrutiny of the mining plan reveals the presence of certain scheduled animals in the area which needs confirmation from the forest department. The DFO in his letter has not commented on this issue. Hence, PP was asked to obtain comments of concerned DFO on this issue and submit. PP has submitted response to the said query vide letter no. 140 dated 16/01/2015.

- 1. Garland drain and check-dams shall be constructed all around the dumps to prevent and flow from the mining site.
- 2. The amount towards reclamation of the pit and land in MLA shall be carried out through the mining department. The appropriate amount as estimated for the activity by mining department has to be deposited with the Collector to take up the activity after the mine is exhausted.
- 3. The mined out pits shall be developed into water body being appropriately fenced and with safe stairway.
- 4. PP shall be responsible for discrepancy (if any) in the submissions made by the PP to SEAC & SEIAA
- 5. Transportation of material shall be done in covered vehicles.
- 6. Necessary consents shall be obtained from MPPCB and the air pollution control measures for crusher have to be installed as per the recommendation of MPPCB.
- 7. Permission / NOC shall be obtained from Gram Panchayat for lifting water from the village resources and shall be furnished to MPPCB while obtaining necessary consents under the provisions of Air / Water consents.
- 8. Curtaining of site shall be done using appropriate media.
- 9. Production of stone boulder shall be as per the mining plan not exceeding 4,560 Cubic mt. /Year and the average depth of the pits shall not exceed 06 meters.
- 10. The proposed plantation should be carried out along with the mining and PP would maintain the plants for five years including casualty replacement.
- 11. Transportation shall not be carried out through forest area.
- 12. Appropriate activities shall be taken up for social up-liftment of the Region. Funds reserved towards the same shall be utilized through Gram Panchayat.
- 13. PP will take adequate precautions so as not to cause any damage to the flora and fauna during mining operations.
- 14. The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- **98.** Case No. 1509/2013- Smt. Neerja Maraiya, K-8, Gandhi Nagar, Tansen Road, District-Gwalior (M.P.)-474002 03.220 Hectare Metal stone quarry at Vill.- LakhanpurBilaua, Distt.-Gwalior (M.P.).

The case was discussed and recommended in the 153^{rd} SEAC meeting. SEIAA has returned the case to review the considerable reduction in the production capacity. The matter was reexamined and it was observed that the production capacity has been quoted as 1000 m3/ Year against the requsite production capacity of 1.0 lac m3/ Year. Committee found the mistake was due to typographic mistake hence the same was corrected as following:

+Production of stone boulder shall be as per the mining plan not exceeding 1,00,000 Cubic meter/Year.'

Accordingly, the <u>recommended</u> production capacity in the case shall be as per the mining plan not exceeding 1.0 lac m3/Year and the average depth shall be as per the approved mining plan. Other conditions shall remain unaltered.

99. Case No. 1849/2014 - Shri Bhuwan Singh S/o Shri Sukliya Ji, Town & District-Alirajpur (M.P.) Auction Quarry River Sand Mining Lease Area – 9.00 ha. at Khasra No. – 363, Village-Bijoriya, The.-Katthiwada, Distt.-Alirajpur (M.P.) Capacity: Sand – 49500 Cu.mt/Year.

This is a case for prior EC for River sand mining from a lease area of 9.00 Ha as per the application and title of the project and the discussion / recommendations made for the case was

STATE EXPERT APPRAISAL COMMITTEE 27th April 2015 MINUTES OF 183rd MEETING

accordinly made in the 162nd meeting of SEAC dated 23/12/2014. Due to typographic mistake the same has been quoted as 10 Ha in the said minutes. Hence the lease area in the project may be read as 9.0 Ha.

100. Case No. - 1731/2013 – M/s PLM Builders & Developers Private Limited(Developers) through Sh. Lalit Kumar Mittal, Director, Housing Board Colony, Katni, (M.P.) 483504 PLM Builders & Developers Private Limited(Developers) through Sh. Lalit Kumar Mittal, Director, at Khasra No. – 343, 344, 345, 353, 354, 363/1, 363/2, 366/1, 366/2, 366/3, 367/1, and others, Village – Jinjhari (Maharana Pratap Ward), Teh. & Distt. - Katni (M.P.) Total Land Area – 10.51 ha., Total Built up Area – 114628 Sq. Mt. for Residential Buildings, Plots, School, Community Hall.

The project has been accorded prior EC subject to several conditions laid by SEAC / SEIAA. The matter has been refrred by SEIAA with request of PP for exemption / amendment in the specific condition no. 13 of the EC. However, it was observed that the relevant letter of PP is not enclosed with the file hence in absence of requested amendment the matter could not be discussed. SEIAA may be requested to send the letter of PP in this context.

101. Case No. - 671/2012- Shri Shankarlal Vishwakarma S/o Shri Puranlal Vishwakarma, Jalpadevi Ward, Gautam Mohalla – Katni, Distt. – Katni (M.P.) - Enhancement in mining capacity of Tikariya Bauxite,Laterite and Fire Clay Mine of 27. 02 ha. at Khasra no. 423, 424, 425/1, 425/2, 426, 454/1, 454/2, 457, 458, 459, 422, 455, 460, 467, 468, 469, 498, 500, 509 Village- Tikariya, Tehsil ó Murwara, Distt. ó Katni (M.P.) Capacity ó 1.25 lac MTPA to 7. 0 lakhs MTPA

The case was recommended by SEAC as per the provisions of EIA Notification prevailing then. Accordingly, the validity of the EC was made co-terminus with the lease validity of the project and mine-life was not the basis for deciding the validity of EC. Now in light of the MoEF Notification dated 07/10/2014 the validity of EC may be up to 30 years unless expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product ó mix is envisaged in proposed mining. SEIAA may therefore consider EC-validity in the instant case in light of said EIA Notification.

102. Case No. - 619/2010- M/s KJS Cement, Village –Amilia – Lakhwar, Teh. - Maihar, Distt- Satna (M.P) Pin - 485771 Bhatia Limestone Mine at Vill. - Bhatia, Area-10.431 ha. Capacity- 0.60 lac TPA Teh.Maihar, Distt. - Satna (M.P.)

The case has been forwarded by SEIAA for considered view on the PPøs request of making necessary change in the EC granted by SEIAA. It is observed that EC has been issued to the PP for above project with condition that - Open cast and manual mining method shall be done and PP has requested to accord EC for Open cast & fully mechanized mining.

Scrutiny of the matter reveals following:

- The EIA report for the project was discussed in the 83rd SEAC meeting dated 08/11/2011 whereby it was clearly mentioned that the proposed mining shall be carried out through Open-Cast & Fully Mechanized method.
- The case was finally recommended for grant of prior EC through its 93^{rd} meeting dated 10/04/2012.

In view of above it is clear that original proposal was for Open-Cast & Fully Mechanized method of mining and the same has never been changed by the PP in any of his submissions hence the requested amendment in the EC may be considered in the matter.

103. Case No. – 2248/2014 Shri Prabhat Kumar Pathak, M/s Dilip Buildcon Ltd., Chuna Bhatti, Kolar Road, Bhopal (MP)-462016 Stone Boulder Quarry Lease Area –2.080 ha. at Khasra No. –243, 247, Village-Paladwar, Tehsil-Pushprajgarh, District-Anuppur (MP) Capacity – 64015 Cu.mt./Year,

The caes was considered in the 175th meeting and was recommended by the committee for grant of prior EC. However as PP did not submit a letter form Mining Officer certifying the total mines and the lease area within 500 meters around the said mine, it was deicded to hold file till submission of the same. Later PP has submitted the requisite information. Mining Officer vide letter no. 451 dated 06/04/2015 has reported that there is no mine operating / proposed with in 500 meters around the said mine. It was decided to forward the physical file to SEIAA for further necessary action. The earlier recommendations of SEAC remain as such.

104. Case No. – 2249/2014 Shri Prabhat Kumar Pathak, M/s Dilip Buildcon Ltd., Chuna Bhatti, Kolar Road, Bhopal (MP)-462016 Stone Boulder Quarry Lease Area –3.00 ha at Khasra No.–243,247, Village-Tarang, Tehsil-Pushprajgarh, District-Anuppur (MP) Capacity- 64,222 Cu.mt./Year.

The caes was considered in the 175th meeting and was **recommended** by the committee for grant of prior EC. However as PP did not submit a letter form Mining Officer certifying the total mines and the lease area within 500 meters around the said mine it was deicded to hold file till submission of the same. Later PP has submitted the requisite information. Mining Officer vide letter no. 452 dated 06/04/2015 has reported that there is no mine operating / proposed with in 500 mewters around the said mine. It was decided to forward the physical file to SEIAA for further necessary action. The earlier recommendations of SEAC remain as such.

105. Case No. 907/2012 Shri Kewal Singh S/o Shri Parwat Singh, Village Kolua Khurd, P. O. – Kolua Khurd Tehsil – Huzur, Distt. – Bhopal (M.P.) 462021 ó Renewal of Mining Lease Area ó 2.692 Ha. Mining of Soil (Mud) for 4,50,000 Bricks manufacturing of Kewal Singh S/o Shri Parwat Singh, at Khasra No. ó 12/1, 12/2, 12/3/1, 12/3/2 at Village ó Sendora, Tehsil ó Raisen, Distt.- Raisen (M.P.) production capacity of 1000 cubic meter per year.

The case was considered and recommended for grant of EC in the meeting dated 13/03/2013 for production capacity of 1000 T/Year and validity of EC for 10 years. However, EC issued to the project by SEIAA was for production capacity of 1000 m3/Year and validity of EC was for 02 years only. PPøs request received through SEIAA for considering the validity of EC for 10 years. The project file forwarded to SEAC was placed in the meeting with facts for considered view of SEAC on the issue. SEAC <u>decided to recommend the case for issue of revised EC with following ammedments:</u>

- Production capacity shall be as per the approved Mning Plan not exceeding 1000 m3/Year and the average depth of pit not exceeding 03 meters.
- The validity of the EC shall be as per the provisions of EIA Notification subject to the following: Expansion or modernization in the project, entailing capacity addition with change in process and or technology and any change in product mix in proposed mining unit shall require a fresh Environment Clearance.
- Other conditions laid earlier shall remain unaltered.
- **106. Case No. 516 / 2010-** M/s Samdriya Builders Pvt Ltd Samdariya House, Russel Chowk Distt-Jabalpur-M.P. Shopping mall with multiplex, civic centre at Jai Prakash, Narayan ward scheme no-18, Distt-Jabalpur-M.P.

STATE EXPERT APPRAISAL COMMITTEE 27th April 2015 MINUTES OF 183rd MEETING

SEIAA vide letter no. 2919 dated 03/01/2015 has asked SEAC to submit comments on the request of PP in context to exemption from certain conditions laid in the EC granted to the project. The matter was examined by the committee and following was decided:

- 1. Request no. (I) pertaining to obtaining of consents from MPPCB is very mush relevant and under the provision of the same PP is required to submit copy of the recent / latest consents to the authority accordingly this condition may not be dropped.
- 2. As EC has been granted to the project by SEIAA after considering the prevailing provisions of EIA notification pertaing to violation, the request no.(II) in this context may be examined at SEIAA level.
- 3. The request no. (III) regarding the condition imposed for ground-water drawal is for the operation phase hence may be shifted under the õSpecific Condition / Operation Phaseøhead.

Meeting ended with thanks to the Chair and the Members.
