

1.0 Opening Remarks of the Chairman

The Chairman welcomed all the members of the Committee (**Annexure-1**) and thereafter agenda item taken up for deliberations. The list of participants present during meeting is annexed as **Annexure-2**.

2.0 Consideration of the Projects

Following issues were discussed and decided:-

- A. 16 proposals were invited for TOR / EIA deliberations. Out of these proposals only 15 proposals were presented before the committee.
- B. Twenty-seventh Meeting was confirmed for 29th May 2009 as per the decision.

EIA Deliberations:

1. 216/2008

Shri R.S. Gupta 97, Chandrashekhar Azad Marg Alirajpur, Jahabua (M.P)

Dolomite mine 8.069 hect. at village Kund Teh: Alirajpur Distt. Jhabua (M.P). **EIA Presentation**

The mining projects of <50 ha or > 5 ha of mining lease area are listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and are to be appraised by SEAC. TOR for preparation of EIA / EMP was issued to the PP vide letter dated 12/11/08. Salient features of the EIA were presented before the committee. Public hearing issues

were also discussed in length. After the detailed deliberations following queries were raised by the committee:

1. In view of manual mining of dolomite whereby fine particles are generated, the workers should be provided with appropriate safety measures and periodic health check-up of the mine workers has to be ensured, thus a detail proposal in this context has to be submitted.
2. The surface and ground water analyses reports and other environmental quality data were found to be anomalous, the same has to be re-examined and reported.
3. Analyses of Hg & other trace elements in water, soil and air (particulates) to be done and accordingly report to be submitted.
4. Prediction of impacts be done properly following CPCB approved models and report incorporating modeling data to be submitted.
5. Prediction of cumulative impacts of all the adjoining mines should be properly evaluated and reported.
6. Top-soil preservation scheme is to be properly prepared and submitted.
7. Rate of plantation has to be enhanced accordingly revised plantation scheme has to be submitted, so that 33% area may be planted within the lease period.
8. Although mining is not going to intersect the ground water table, the hydrogeology studies conducted by the PP to be submitted.
9. Need based survey to be conducted for proper social development of the community.
10. Based on the above survey a detailed CSR plan with fund allocation to be submitted. A joint commitment letter from the adjoining mine owners with budget allocation for common socio-economic activities for the people of the region have to be submitted. The CSR may include construction of toilets, hospital and minimum community development schemes. etc.
11. Environmental Management Plan to be properly prepared considering real ground situations with proper design / drawing and a report to be submitted.
12. NOC from 'Gram Panchayat' has to be submitted for use of water from village for mining activities.
13. NOC from Forest Department has to be submitted.

- Duly attested & certified Mining Plan approved by IBM has to be submitted along with the copy of current lease deed and lease letter issued by the State Mining Corporation.
- Monitoring has to taken up as per the norms using appropriate air/water quality modeling, based on meteorological data (wind-rose) of the region.
- Plantation in at least 33% of the total area has to be ensured; accordingly plan has to be submitted with EIA. [Plantation Scheme].
- Total area for which afforestation has been proposed – plan stating how much plantation shall be taken up yearly, has to be submitted. Plantation of local species along with Sheesham, Neem, Amaltas, Tendu, Kachnar & various fire-wood trees should be taken up suitable to area.
- PFR should include cost benefit analyses considering- social cost, environment cost and pre-occupational cost.
- For welfare of the mine-workers various activities such as regular health checkups, first-aid, shelter for rest and meals, drinking water etc. has to be taken up. Nearby mine owners may form a society and funds for welfare of mine-workers may be created from various govt. schemes and other sources. This aspect has to be covered in the EMP.
- Management of OB solid waste generated during mining has to be addressed through incorporation of a concrete plan for the same.
- Water-shed management plan to be submitted, in view of the damages caused in the catchment-area of rivers falling in the prescribed study area of mining region & to support the ground-water recharging.
- In land use map, details regarding the agricultural crops pattern around the mining area should also be added.
- Map depictions: coloured maps depicting land use of the region showing sensitive / fragile features and detailed lay-out of the site clearly showing green-belt (existing & planned)
- Species proposed in the green belt development should be notified.
- Satellite Image of the location of mine should be submitted with demarcation of other proposed/in operation mines in nearby area.

- Map depictions: coloured maps depicting land use of the region showing sensitive / fragile features and detailed lay-out of the site clearly showing green-belt (existing & planned)
- Species proposed in the green belt development should be notified.
- Satellite Image of the location of mine should be submitted with demarcation of other proposed/in operation mines in nearby area.
- Location is also to be shown in Tehsil map procured from revenue department.
- Leachate study to be conducted and incorporated in the EIA report.
- The EIA should be prepared based on model TOR for appraisal of mining projects issued by MoEF, Delhi
- NOC / Recommendation from the concerned DFO to be submitted.

4. 295/2009

Shri Rajendra S/o Shri Punam Chand Chouhan, Bakwadi, Distt- Badwani (M.P)

Sand mine 8.215 Ha at Bhulgaon Teh- Vijayraghgarh, Distt- Katni (M.P) **TOR approval.**

The proponent did not attend the meeting hence committee decided to call the proponent in next meeting.

5. 296/2009

Shri K.L. Bansal (CMD), Dee Development Engineers (P) Ltd., 1255, Sector, 14, Faridabad, Haryana.

12 MW Biomass based power plant at Sheopurkalan (M.P)

The renewable energy projects <50 MW or >5 MW (Pet coke, diesel and all other fuels) are listed at S.N. 1(d) of schedule under 'B' Category of EIA Notification, 2006 and sre to be appraised by SEAC.

Applicant, aided by the consultant gave a presentation on the salient features of the project and the draft Terms of Reference for undertaking detailed EIA study.

After detailed deliberations, the SEAC has recommended the inclusion of following TORS in the preparation of EIA/EMP:-

- Source & availability (quantification of demand vis-à-vis collection) of bio-mass with supportive documentation (lease, agreements etc.) to be produced.
- Sources of water to be incorporated with details of ground water potential of the region.
- Satellite Image of the location should be submitted.
- Environmental monitoring and modeling to evaluate the impacts in absence and in presence of the proposed project, including the social impacts.

In addition to above the applicant is also required to submit the following with EIA/EMP:

- Land Ownership documents.
- Clearance from Urja Vikas Nigam.
- DIC registration.

6. 297/2009

Shri B.V. Reddy Director, Betul Non-Conventional Energy (P) Ltd. E-6/63, Arera Colony Near Saibaba Hoarding, Bhopal (M.P)

10MW Biomass based Power Plant, at Mandavi Near sehra, Atner Road, Betul (M.P)

The renewable energy projects <50 MW or >5 MW (Pet coke, diesel and all other fuels) are listed at S.N. 1(d) of schedule under 'B' Category of EIA Notification, 2006 and sre to be appraised by SEAC.

Applicant, aided by the consultant gave a presentation on the salient features of the project and the draft Terms of Reference for undertaking detailed EIA study. Proponent has submitted the land ownership documents and Power evacuation letter from Urja Vkas Nigam.

After detailed deliberations, the SEAC has recommended the inclusion of following

- Satellite Image of the location should be submitted.
- Environmental monitoring and modeling to evaluate the impacts in absence and in presence of the proposed project, including the social impacts.

In addition to above the applicant is also required to submit the following with EIA/EMP:

- NOC from forest department.
- Permission from irrigation department for lifting water from river and the natural drain passing near the site.
- Permission from CGWA if ground water is intended for use.

7. 298/2009

M/s Bhopal Gelatines (P) Ltd., 189, Jinsi Bhopal

Capacity Expansion of Food/Pharmaceutical Technical Grade Gelatine from 675 TPA to 1200 TPA at AKVN Industrial Area, Pilukhedi, Teh- Narsingharh Distt- Rajgarh (M.P)

The leather/skin/hide processing industries comprising - New projects or expansion of existing units out side the industrial area have been covered under **A 4(f) of the Schedule of EIA Notification 2006.**

After deliberation on the project it was found that this case is a proposal of expansion in the existing unit which is located outside the notified industrial area and has to be appraised by MoEF (GoI), thus committee decided to return the case to SEIAA for further necessary action in the matter.

8. 299/2009

M/s Murlidhar minerals, Malegaon, Sauser, Chhindwara (M.P)

Malegaon Dolomite mine 10.00 Ha , 20000 TPA at village- Malegaon Teh- Sauser, Distt- Chhindwara (M.P)

This being a mining project with lease area between 50 ha to 5 ha is listed at S.N. 1(a) of schedule under 'B' Category of EIA Notification, 2006 and is to be appraised by SEAC.

The applicant, assigned by his consultant presented the salient features of the project and the draft Terms of Reference for undertaking detailed EIA study.

After detailed deliberations, the SEAC has recommended the inclusion of following TORS in the preparation of EIA/EMP:-

- Duly attested & certified Mining Plan approved by IBM has to be submitted along with the copy of current lease deed and lease letter issued by the State Mining Corporation.
- Monitoring has to taken up as per the norms using appropriate air/water quality modeling, based on meteorological data (wind-rose) of the region.
- Plantation in at least 33% of the total area has to be ensured; accordingly plan has to be submitted with EIA. [Plantation Scheme].
- Total area for which afforestation has been proposed – plan stating how much plantation shall be taken up yearly, has to be submitted. Plantation of local species along with Sheesham, Neem, Amaltas, Tendu, Kachnar & various fire-wood trees should be taken up suitable to area.
- PFR should include cost benefit analyses considering- social cost, environment cost and pre-occupational cost.
- For welfare of the mine-workers various activities such as regular health checkups, first-aid, shelter for rest and meals, drinking water etc. has to be taken

up. Nearby mine owners may form a society and funds for welfare of mine-workers may be created from various govt. schemes and other sources. This aspect has to be covered in the EMP.

- Management of OB solid waste generated during mining has to be addressed through incorporation of a concrete plan for the same.
- Water-shed management plan to be submitted, in view of the damages caused in the catchment-area of rivers falling in the prescribed study area of mining region & to support the ground-water recharging.
- In land use map, details regarding the agricultural crops pattern around the mining area should also be added.
- Map depictions: coloured maps depicting land use of the region showing sensitive / fragile features and detailed lay-out of the site clearly showing green-belt (existing & planned)
- Species proposed in the green belt development should be notified.
- Satellite Image of the location of mine should be submitted with demarcation of other proposed/in operation mines in nearby area.
- Location is also to be shown in Tehsil map procured from revenue department.
- Leachate study to be conducted and incorporated in the EIA report.
- The EIA should be prepared based on model TOR for appraisal of mining projects issued by MoEF, Delhi
- NOC / Recommendation from the concerned DFO to be submitted.

9. 248/2008

M/s Satguru Cement (P) Ltd. 102, Golden Tower, 94/47, Sneh Nagar Main Road Indore (M.P) *Expansion of prod. Capacity from 30,000 TPA to 95,000 TPA & production of clinkers 1, 50,000 MTPA.*

This is a case for additional TOR. The PP was earlier issued a TOR to conduct EIA/EMP for its proposal on enhancement of production capacity from 30,000 TPA to 95,000 TPA, vide letter no.111 dated 11/02/2009. Applicant has requested for revised TOR in view of its plan for manufacturing 1,50,000 Clinkers of which only 95,000 TPA shall be used for cement production in-house and remaining shall be sold to other cement mills. After detailed deliberation the SEAC has recommended following additional TOR:

- ❖ Environmental Data collection and interpretation has to be carried out considering the increased production.
- ❖ Impact assessment using standard models should be carried out for total production capacity.
- ❖ Accordingly the Public hearing has to be conducted.
- ❖ Other terms of reference issued earlier vide the referred letter shall remain unaltered.

Discussion and decisions pertaining to the query replies submitted by the Project Proponents:

	Project	Discussion and conclusions
1.	224/2008 A.V. Mines (P) Ltd. Indore Manganese Ore Deposit 6.390 Ha at Village Amaliamal Jhabua	The PP was asked to submit permission from competent authority for boring, Environment Quality Monitoring data authenticated from approved laboratory and re-allocated budget for environmental monitoring. In view of satisfactory submission of the requisite documents Committee has <u>recommended the case for issue of Environmental Clearance.</u>
2.	31/2008 Shri Rajeev Gupta 3600/1, Trimurti Nagar, Damoh Road Jabalpur <i>Mine of Dolomite & Soap stone mine 6.191 Ha at Village Ainthkheda Teh & Distt. Jabalpur Cap-10,000 tonnes /annum</i>	The PP was asked to submit details of surrounding (including mines) on a map of 1:25000, re-allocated budget for Socio Economic activities, year-wise plantation scheme, NOC from the forest department, Permission from competent authorities for use of water for mining activities and monitoring report from approved laboratory. In view of satisfactory submission of the requisite documents Committee has <u>recommended the case for issue of Environmental Clearance.</u>
3.	235/2008 Shri Rajeev Chadha Opp- GS College Civil Lines Jabalpur M.P Laterite, yellow ochre, iron ore, Blue dust mine 7.310 Ha at village Gandhigram Teh: Sihora, Jabalpur (M.P)	The PP was asked to submit NOC from the forest department and Ore and water analyses report from approved laboratory. In view of satisfactory submission of the requisite documents Committee has <u>recommended the case for issue of Environmental Clearance.</u>

COMMITTEE HELD ON 28th May, 2009**

23

14.	24/2008 M/s. Piparitola Laterite Mine Vill. Piparitola Teh: Raghuraj Nagar Distt. Satna (M.P):- Area - 22.223 ha production-44000 ton/annum. Prop-sharad Kumar Bansal	The PP was asked to submit scheme of plantation showing complete [33% of the lease area] plantation within the lease period and fund allocation towards the Corporate Social Responsibility and plantation. In view of satisfactory submission of the requisite documents Committee has <u>recommended the case for issue of Environmental Clearance.</u>
15.	97/2008 Smt. Gayatri Devi Bansal, P.O. Jaitwara, District Satna, (M.P) Gandhigram Ochre, Laterite & Iron Ore Mine, Village: Gandhigram, Tehsil Sihora, Distt: Jabalpur (M.P), Area: 9.47 Ha, Production: Lat: 0.26 Lac T/Y, Ochre: 0.03 Lac T/Y, Iron: 0.55 Lac T/Y	The PP was asked to submit scheme of plantation showing complete [33% of the lease area] plantation within the lease period, hydro-geological study of the area and a statement on beetle farming in the region in view of the public hearing issues' and documents pertaining to transfer of lease to the legal heir of Late Smt. Gayatri Devi Bansal. The plantation scheme has to be re-submitted so as to achieve at least 33% green area by the end of lease period; the <u>committee has asked the PP to submit the same.</u>

Case No. 93/2008 of Smt Kunwar Rani Ayodhya Singh Iron Ore Mine, Village – Panihar, Tehsil – Gird Distt- Gwalior 20.235 Ha – TOR was issued to the PP to conduct EIA studies in context to the aforementioned mining vide letter dated 28/05/08. Regional Office M.P. Pollution Control Board has reported that the proponent shall also carry out the sizing of the ore in the lease area after excavating the mineral. A crusher has been installed at site for the purpose, which is a potential source of air pollution. As there has been no mention of the crusher in the TOR issued for EIA the same should be incorporated by issuing additional TOR, so that the issue may be covered in the Public Hearing. After examining the case Committee has the opinion that the case may considered for issue of additional TOR incorporating Sizing as well as Excavation of Mineral. Accordingly, the PP may be informed.

Meeting ended with vote of thanks to the Chair.
