extent. After deliberations, the committee recommends the case for extension in TOR for one year with validity up to 28/06/16. PP vide letter dated 15/06/2016 has again requested for extension in validity of TOR for one more year as twice their public hearing has been cancelled referring letter dated 25/08/2015 wherein PP has requested for TOR validity extension for two years. PP further submitted that against their request of two year extension TOR validity was extended only for one year. Committee after deliberations recommends that the TOR validity may be extended for one year with validity up to 27/06/2017."

Action of SEAC for extension of ToR is hereby approved.

17. **Case No. 4401/2015** Prior Environmental Clearance for Sand Quarry (Opencast Manual Method) in an area of 23.00 ha. for production capacity of 4,60,000 cum/year at Khasra no.- 1229 at Village-Bhumka, Tehsil-Majhoul, District-Sidhi (MP) by M/s Sanik Foods Pvt. Ltd., Shri Litesh Jha, HIG G.D-5, Dindayal Nagar, Phase-1, Kanth Road, and Muradabad (U.P.)- 487221.

After detailed discussion and recommendation of 36th SEAC-II meeting dtd. 04.07.2016, it was reported that :-

The case was discussed in the 28th SEAC meeting dated 02/06/2016 wherein it is recorded that the committee after deliberations decided that based on the recent available Google image of 2015, only 15% of the area is available for evacuation of sand, thus committee decided to reduce the volume of sand excavation to **92,000 cum/year** and recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'B':

- Production of Sand as per mine plan with quantity not exceeding 69,000 cum/year.
- District Authority should record the deposition of sand in the lease area at an interval of 100 meters annually in the last week of September and maintain the records in RL (Reduce Level) Measurement Book. Accordingly authority may allow lease holder to excavate the replenished quantity of sand in the subsequent year.
- Evacuation of sand should not be allowed through the roads passing through the villages
- Heavy vehicles (Hywa) should not be allowed on Kachcha, narrow roads.
- If causeway (Rapta) is required to be constructed for mining. It should be removed completely before rainy season every year.
- The river bank from where access ramps are made should be restored and access should be closed every year before rainy season.
- No diversion of active channel should be allowed for mining.
- In the sanctioned OL area safe zone of 300 meters from the dam side boundary should be left as no mining area.
- The grant of Environmental Clearance should be subject necessary Wild Life Clearance from NBWL to be obtained by PP

SEIAA vide letter no. 2302/SEIAA/16 dated 01/07/2016 sent back the file to SEAC referring the 28th SEAC II minutes dated 02/06/2016 that it appears there is ambiguity in the production capacity which was placed before the committee. Committee after perusal of the case file and deliberation decided that the recommended capacity was 69,000 cum/year which was 15% of the asked volume ie 4,60,000 cum/year.

From the above observation it is revealed that in para 1, the capacity has been shown as 92,000 cum/year whereas in the recommendation the capacity has been indicated as 69000 cum/year. The case may be returned to SEAC for clarification.
