No: 2143 / SEIAA/2021

Date: 11/10/21

To,

M/s PNB Infra,
Shri Pushpendra Tiwari,
Beside Central School, Nirala Nagar,
Tehsil - Huzur,
Dist. Rewa, MP - 486001

Sub: Case No 8584/2021- Prior Environment Clearance for **Stone Quarry** in an area of 1.314 ha. for production capacity of 12403 cum per annum at Khasra No. 247/2, at Village - Darhi, Tehsil - Huzur, Dist. Rewa (MP) by M/s PNB Infra, Shri Pushpendra Tiwari, Beside Central School, Nirala Nagar, Tehsil - Huzur, Dist. Rewa, MP - 486001.

The case was discussed in 684th Meeting of SEIAA dated 13.09.2021 and it has been recorded that

"....The case was presented by PP and their Consultant. During presentation, it was observed by Committee that as per Collector Office (Ekal Praman-Patra) letter No. 1677 dated 19/3/2021 has reported that there are 03 more mines operating or proposed within 500 meters around the said mine with total area of 7.314 ha., including this mine. During presentation it was observed by the committee that as per Google image (June, 2021) based on coordinates provided by PP that the lease area is excavated in the centre and north – west side of the lease and huge water filled pit has been formed. A crusher is also installed in the in the eastern margin of the lease. Within 500 meters following sensitive features were observed of the lease area.

Sensitive Features	Approximate aerial distance from the lease area in meters	Direction
Isolated house and settlement	>150	West
04 -05Trees	within lease	Sparsely distributed in the eastern side
Pucca road	80 m	East
Canal	>80 m	East

During appraisal, it was observed by the committee that lease area is very sensitively located, wherein huge water filled pit is in existence within the lease are around the lease on the western side where deployment of mining machineries is difficult as well as very risky to the mine workers. Further on the western side of lease some housed are in existence for which PP submitted that these are farm houses developed by the independent owners. Committee deliberated that as per NGT order dated 21/07/2020 in OA no. 304/2019, minimum 200 meters distance is to be maintained from inhabited area and if this distance is left, the lease becomes non minable. Considering above facts, committee after deliberation recommends that this case cannot be considered for grant EC and file may be sent to SEIAA for onward necessary action."

Edh

After detailed discussion, it was decided to accept the recommendation of SEAC that the case cannot be considered for grant of EC and this case is hereby rejected. Copy to PP and all concerned.

In view of the above, it is informed to you that the said case is rejected and cannot be considered for grant of EC.
